

Planning Application 4/02495/15/FHA - 42 Highbarns

Information from applicant to be included at Committee Meeting on 14th January 2016

- Our house is on the corner of a dead end road and is hidden by large trees. The only house that would have a clear view of the extension is the house opposite (marked in yellow). The owner, Phil, has no objection to our application. He has viewed the drawings and thinks it would look nice.

(image obtained from Street View)

- Both 27 and 25 Chambersbury Lane (right next door to us) have completed double storey side extensions flush with the front of their properties and to their boundaries. We would not be building to our boundary and the extension would be recessed. The design of the extension is also in keeping with the original house.

- The lower floor of the extension would not come beyond where the existing garage sits. We are effectively only pushing the side wall out and so the view coming up the road would be the same.

- We would not build to our boundary and would keep over a metre between us and our neighbours.
