March 2014

Information audit and physical storage audit has been carried out to establish the type of personal data being stored (either as paper documents or electronically), where and how the data is being stored and who by. Arrangements in place for the secure disposal of confidential waste which include the provision of locked bins located around the Civic Centre and special arrangements for the disposal of bulk confidential waste by a specialist contractor. Frequent mandatory training of staff provided and run by the Information Security Team Leader. In addition to the mandatory training courses the Information Security Team Leader also conducts awareness campaigns using posters and flowcharts around the Civic Centre next to the confidential waste bins. The risk of an unlawful disclosure of personal data is greater in respect of data which is stored in the form of paper documents or files. As the EDRMS project continues to be rolled out the amount of data stored in the form of paper documents or files will decrease and therefore the risk of unlawful disclosure will also continue to reduce.
