1. **Executive Summary**

- 1.1 The Council is required to set the Council Tax Base for 2018/19 so that it can be used in budget preparations and for the formal setting of the Council Tax by Full Council in February 2018. It is also necessary to approve the estimated Collection Fund surplus or deficit as at 31 March 2018.

2. **Declaration of Collection Fund Surplus or Deficit**

How does a surplus or deficit occur?

- 2.1 The income collected from Council Tax goes into the Collection Fund. Throughout the year the actual number of properties in the borough (as well as allowances for exemptions, discounts or appeals) inevitably varies from the figure estimated at the start of the year. This leads to a change in the amount of Council Tax collected. Despite this variation in *collection*, the amount *paid* to the preceptors remains the same as the amounts specified at the start of the year, and does not reflect in-year changes to the amount of Council Tax. It is this emergent variance which creates a surplus or deficit on the Collection Fund.
- 2.2 The key driver in respect of the surplus or deficit position is the timing of when anticipated developments are completed. If there are more than expected, or they are completed more quickly, a surplus will arise; but if there are fewer, or they take longer to complete, then a deficit will result. Any surplus or deficit is shared between the major preceptors (i.e. Herts County Council, the Police and Crime Commissioner and the Borough) in proportion to their precepts for the year.

Declaration of Surplus or Deficit

- 2.3 The actual surplus or deficit as at 31 March 2017, together with an estimate of the surplus or deficit for the current year, is required to be approved by Cabinet on behalf of the Council.
- 2.4 The actual surplus balance on the Collection Fund as at 31 March 2017 was £745,266.11 compared to an anticipated surplus of £635,281.80 in 2016/17; a difference of £109,984.31. The surplus is 0.9% of the value of the precepts declared when the Council Tax was set.
- 2.5 In 2017/18, the Collection Fund is estimated to achieve a total projected deficit of **£260,662.80** of which the Council's share will be a projected deficit of

£33,044.32. The deficit is 0.3% of the value of the precepts declared when the Council Tax was set.

- 2.6 The distribution of the difference between the anticipated surplus and the actual surplus as at 31 March 2017 (a surplus of £109,984.31, as shown in paragraph 2.4), means that there is now a projected total deficit on the Collection Fund at 31 March 2018 of **£150,678.49**.
- 2.7 The proportion of this deficit that each of the Major Preceptors will receive from the Collection Fund when calculating the Council Tax for 2018/19 is as follows:

Dacorum Borough Council	£18,907.64
Hertfordshire County Council	£117,607.98
Police and Crime Commissioner for Hertfordshire	£14,162.87
Total Deficit	£150,678.49

- 2.8 Cabinet approval of the Collection Fund Deficit estimated at 31 March 2018 is sought in Recommendation 1.

3. Council Tax Base 2018/19

- 3.1 On an annual basis, all local authorities are required to calculate a Council Tax Base which is used to set the level of Council Tax. The process is governed by the Local Authorities' (Calculation of Tax Base) Regulations 1992.
- 3.2 The tax base is set having regard to:
- The Valuation List;
 - Current exemptions, reductions and discounts;
 - Discretionary discounts;
 - Anticipated developments that may occur during the year;
 - Expected long term collection rate.
- 3.3 Local discounts and premiums arising from the Council Tax Support Scheme and Council Tax Reforms brought in from 1 April 2013 have been taken into account in the tax base calculation.
- 3.4 The basic methodology for calculating the tax base is as follows:
- Calculations are made of the 'relevant amount' for the year in respect of the valuation bands shown in the Council's Valuation List. For each band, this amount represents the estimated full year equivalent number of chargeable dwellings listed in the band after taking into account the impact of disabled band reductions and discounts (including Council Tax Support).

- The 'relevant amounts' for each band are then aggregated and expressed as an equivalent number of band D dwellings.
- The Council then multiplies this aggregate of all relevant amounts by the estimated collection rate for the year. The resulting figure is the Council Tax Base for the year.
- The rules for calculating the Council Tax Base for any part of a Council's area (e.g. a parish, or that part of its area to which a levy or special levy relates) are the same as the rules for calculating the Council Tax Base for the whole of its area for that year, and the same estimated collection rate must be used.

3.5 The estimate of the collection rate is the only area over which the Council has any discretion. A collection rate of 99.4% was adopted upon implementation of the Council Tax Support Scheme, and from the data collected so far, there is no reason to deviate from this assumption; but this will continue to be monitored closely. Recommendation 2 seeks Cabinet approval for an estimated collection rate of 99.4%.

3.6 Collection rates will be continually monitored and any adjustments will be reflected in the calculation of the 2018/19 surplus or deficit.

3.7 The tax base for 2017/18 was 56,415.4 (after adjusting for the estimated impact of Council Tax Support and a 99.4% collection rate), and the proposed tax base for 2018/19 is 56,743.6. This represents an increase of 328.2 Band D equivalent properties, or 0.58% on the tax base.

4. Notification of Tax Base

4.1 Major Precepting Authorities and levying bodies, are required to request their tax base figure (and notify any changes to their tax base area), from the Council, before the end of December 2017. The Council must give notification of all requested tax base figures by the end of January 2018.
