FR\_F02 Delays to Capital programme

<b>Category:</b> Financial	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> Nigel Howcutt	<b>Portfolio Holder:</b> Graeme Elliot	<b>Tolerance:</b> Treating	
Inherent Probability	Inherent Impact	Inherent Risk Score	Residual Probability	Residual Impact	Residual Risk Score
4 Very Likely	2 Medium	8 Amber	3 Likely	2 Medium	6 Amber
Consequences		Current Controls		Assurance	
<p>Many of the major projects within the Capital Programme are fundamental to delivery of the Council's corporate objectives. Therefore significant delays can impact on the achievement of the corporate plan.</p> <p>Financial decision-making is negatively affected if the timing of projects in the Capital Programme is wrong. This can result in lost investment income or increased interest costs as the Council moves closer to the point where it will need to borrow.</p> <p>The estimated delivery date is considered as part of the decision to allocate capital funds to one project over another. If estimated timings are not accurate, there is a risk that the allocation of funds is not being decided on appropriately.</p> <p>If inaccurate project management is tolerated, there is a risk that the culture of financial management across the Council will be negatively affected which will have consequences for wider financial decision-making.</p> <p>Not delivering major projects within the timeframe to which it has committed itself exposes the Council to</p>		<p>The controls that have been implemented to mitigate this risk target the robustness of capital bids both at the time they are submitted and throughout the delivery phase of the projects.</p> <p>In particular, scrutiny is focussed on those elements of the capital bid that experience indicates are the primary cause of delays to capital projects. These include</p> <ul style="list-style-type: none"> <li>• How robust are the assumptions on the estimated duration of the procurement exercise?</li> <li>• How realistic is the estimated time taken for contractors to deliver the works?</li> <li>• How realistic are the assumptions on officer availability to manage the project on time?</li> </ul> <p>The rationale behind this approach is that an increased culture of challenge will lead to more realistic programming of future capital projects, and therefore a reduced likelihood of slippage.</p> <p>The following controls are in place with a view to</p>		<p>2016/17 General Fund reported slippage of 5% (£873k). The Provisional Outturn was reported to May Cabinet. It shows the HRA capital programme is forecasting slippage of 29% (£7,881k). The General Fund is on track reporting slippage of 8.6% (£1,844k)</p> <p>2017/18 As at the end of quarter 1 forecast slippage for Capital schemes for the general Fund is 27%. The HRA capital programme is forecasting 22% slippage. Reports to Cabinet for September will re-profile the programme to reflect the latest updated position. As at the end of Quarter 2 slippage for the HRA is forecast to be £717k or 2% of the capital programme. The General Fund is forecast to overspend by c£1.7m or 19%. However if you remove the grant payments to registered providers of c£2.5m then there would be slippage of c£830k or 9%.</p> <p>At Qtr 3 the HRA is projecting a slippage of 23% and the general fund is reporting a slippage of 21% with an average capital slippage of 22%.</p> <p>At Qtr 4 and provisional outturn the HRA is projecting slippage of 28% and the general fund is reporting a slippage of 34% an average slippage of 30%.</p>	

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

<p>reputational risk.</p>	<p>developing a culture of scrutiny and challenge for officers to improve the accuracy of future bids:</p> <ul style="list-style-type: none"> <li>• Capital Strategy Steering Group (CSSG) comprising senior officers from across the Council required to challenge new bids for robustness ahead of recommendation to Members;</li> <li>• Monthly meetings take place between accountants and budget holders to monitor progress against original timeframes and costs;</li> <li>• Corporate Management Team (CMT) receive a monthly report on the progress of capital projects against anticipated timeframes;</li> <li>• Performance Group comprising Chief Officers and cabinet Members receive a monthly report on the progress of current projects;</li> <li>• Reports go to Cabinet and all Overview and Scrutiny Committees (OSC) every quarter. These reports have been redesigned to focus on the more immediate risk of in-year delivery, highlighting higher risk areas to invite closer scrutiny from Members.</li> </ul> <p>The 2018/19 capital programme profiling will be reviewed as part of the Qtr 1 monitoring period and AD's will be required to approve the profiling of these budgets and take accountability for delivery of these schemes within the projected timescales.</p>

In response to large levels of slippage in the capital programme the capital spend profile will be reviewed as part of quarter 1 budget monitoring.

**FR\_F03 Variances in General Fund revenue budget**

<p><b>Category:</b> Financial</p>	<p><b>Corporate Priority:</b> Dacorum Delivers</p>	<p><b>Risk Owner:</b> Nigel Howcutt</p>	<p><b>Portfolio Holder:</b> Graeme Elliot</p>	<p><b>Tolerance:</b> Treating</p>
---------------------------------------	--	---	---	---------------------------------------

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

Inherent Probability	Inherent Impact	Inherent Risk Score	Residual Probability	Residual Impact	Residual Risk Score
3 Likely	2 Medium	6 Amber	2 Unlikely	2 Medium	4 Green
Consequences		Current Controls		Assurance	
<p>Accurate, well-controlled budgeting relates directly to the achievement of the Dacorum Delivers corporate objective, and indirectly, through the financial decision-making process, to the achievement of all of the Council's corporate objectives.</p> <p>Inaccurate budgeting negatively affects the Council's ability to make evidence-based decisions. A significant underspend at year-end could indicate that funds have been needlessly diverted from a competing priority. A significant overspend at year-end could result in reserves being used to support lower priority objectives. Both of these could result in reputational damage for the Council.</p> <p>Failure to address the causes of inaccurate budgeting could negatively impact the Council's culture of financial management, which in turn increases the risk of poor financial decision-making.</p>		<p>The following controls aim to reduce the probability of there being a variance in the General Fund Revenue Budget by ensuring that there is strong challenge put to Budget Holders on the robustness of their assumptions, from a range of audiences.</p> <p>It is intended that these controls will increase the opportunity for flawed assumptions to be exposed as soon as possible, as well as inculcating a stronger culture of financial management across the Council leading to continuous improvement in the setting of accurate budgets.</p> <p>The annual budget-setting process consists of an ongoing scrutiny process in which senior officers from across the Council, together with the Financial Services team, challenge the following year's budget bids from Group Managers.</p> <p>This scrutiny process is augmented by the Budget Review Group (BRG), consisting of Chief Officer Group and representatives from the Portfolio Holder group, which provides early Member-level challenge.</p> <p>There are two opportunities for OSCs to scrutinise the budget proposals and directly question the relevant officers before the budget report is finalised and considered by Cabinet and Council.</p> <p>Once approved, in-year budget performance is managed through monthly meetings between accountants and budget holders, which underpin monthly reports to CMT and quarterly reports to Cabinet and OSCs.</p>		<p>Provisional Outturn reported to Cabinet in May 2016 demonstrated that the Council was on target (after contributions to and from reserves). Additional income was included within the outturn reported to Cabinet and meant that additional contributions could be made to reserves.</p> <p>The 2016/17 Statement of Accounts were approved by Audit Committee on the 20th September and the Council received an unqualified opinion from the auditors on the 29th September with no material changes to the accounts presented in June.</p> <p>The internal audit report in relation to budgetary control was undertaken in early 2018 and a full assurance was achieved in May 2018. The 2017/18 provisional outturn reported a variance on the general fund of only £89k, a variance of less than 1% of the net operating budget. This outturn suggest an accurate and efficient budget was set for 2017/18.</p>

**FR\_I02 Failure to optimise income generated by commercial assets**

<b>Category:</b> Infrastructure	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> Nigel Howcutt	<b>Portfolio Holder:</b> Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	3 High	9 Amber	2 Unlikely	3 High	6 Amber
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
<p>The council has a significant portfolio of commercially let properties, which provides one of the council's largest sources of income.</p> <p>Council officers must attempt to maximise income from these assets whilst avoiding the risk of vacant properties and increasing bad debts, which could arise if rents are set too high, and would jeopardise the council's achievement of its corporate objectives of Regeneration and Dacorum Delivers.</p> <p>The continuing recession and the difficulties it brings for local businesses increases the likelihood of this risk crystallising.</p>		<p>The following controls aim to mitigate the risk of under-performance of the Council's commercial assets by maintaining good communication links between relevant Council services, and by regularly monitoring performance against targets (see KPIs CP01 and CP02) to ensure that underperformance is identified and addressed as quickly as possible. The existence of these controls has led to the 'Inherent Probability' of this risk occurring reducing from a score of 3, which is shown in the Residual Probability (i.e. after controls implemented) being a 1.</p> <p>Estates officers responsible for negotiating rent reviews hold monthly meetings with the Debtors team to track current bad debtors. This increases their understanding of the economic pressures businesses are facing, and how it can impact on council income.</p> <p>There are currently Corvu performance targets to maintain the number of voids (empty properties) below 5%, and to keep the rent arrears below 10%. Failure to</p>		<p>2016/17 Q4 occupation rates have stabilized at 97.16% versus a target of 95% and arrears have increased slightly to 7.3% against a target of 8.8%. Investment property income is exceeding target by £475k.</p> <p>2017/18 Quarter 1 performance is above target and demonstrate an occupation rate of 96.99 versus a target of 95%. The level of arrears has increased slightly to 7.94% versus a target of 7.5%.</p> <p>The outturn position reports that commercial property occupation is 95.4%, 0.4% greater than the KPI with arrears on commercial property rents of 7%, 1% greater than the 17/18 KPI of 6%. The year end position and Qtr 4 performance was much improved on previous months performance and action has been taken to repossess and re let several properties with high levels of arrears.</p>	

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

meet either of these targets would prompt further investigation.
<b>Sign Off and Comments</b>

**FR\_R01 Council Tax and Business Rates collections rates drop below budget**

<b>Category:</b> Reputational	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> Nigel Howcutt	<b>Portfolio Holder:</b> Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

3 Likely	2 Medium	6 Amber	3 Likely	2 Medium	6 Amber
Consequences		Current Controls		Assurance	
<p>Distribution of collection fund to other preceptors is based on the budgeted collection level, if collection falls short this could lead to a cashflow issue within the Council's finances. The fund distribution is balanced after the end of the financial year.</p> <p>Reputational risk if collection rate falls significantly – this could also impact on future years' council tax base leading to increased budget pressures.</p> <p>Financial risk in relation to business rate retention scheme if rates collection falls below government set baseline.</p>		<p>The following controls aim to identify as quickly as possible if the Council is falling behind on its collection rates target for the year. If a problem is identified, the Council is then able to invoke a range of options to minimise the ongoing negative impact on collection.</p> <p>Profiled monthly collection rates are monitored monthly - see KPIs RBF04 and RBF05. Reasons for variances are then investigated in order to address problems quickly as possible.</p> <p>Direct debit payment is recommended for all customers – a pre-filled instruction is sent to all non-DD payers with their annual bill or a first bill for a new taxpayer. The direct debit method reduce the risk of under-collection because it eliminates the risk of a payer forgetting to make a monthly payment.</p> <p>There is an active programme for taking formal recovery action against non payers.</p>		<p>The full year Council Tax Collection Rate for 2013/14 (Performance Indicator RBF05) was 97.7% against a budget of 97.5%. The full year Business Rates collection rate in 2014/15(Performance Indicator RBF04) was under budget at 98.1% against a target of 99%. Q1 Council Tax collection rates is 30.2% versus a target of 30.1% Q1 Business Rates collection is 30.2% versus a target of 24.8% Q2 Business rates collection is 52.6% achieved versus a target of 51.5%. Council tax collection is on target at 58%.</p> <p>Q3 Business rates collection is 77.2% and is running at 0.5% ahead of target. Council tax collection is at 86.2% which is 0.2% off target but is a 0.1% improvement from the same period last year. Internal Audit have performed a routine assessment of the control environment within Council Tax collection and have given an assurance of Full/Substantial . This is a good result and has highlighted a number of minor improvements that can be made to the timeliness of some work. This does however provide assurance to members that the fundamental design and operation of the control processes are robust. Members can gain additional assurance from the routine Internal Audit assessment of Business Rates as being at Full/Substantial levels. Council tax collection for 2015/16 was 98% which is 0.3% improvement on 2014/15. Business rate collection was 98.3% narrowly missing the target of 99% but improving on the 2014/15 performance by 0.2%. Q1 Business Rates collection is 27.7% which is exactly on target and Council tax Collection is 30.4% which is 0.2% up on target. Q2 Business Rates collection is 52.3% which is ahead of target (51.6%)and Council tax Collection is 58.2% which is 0.2% up on target.</p>	

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

		<p>Q3 Business rates collection is slightly ahead of target(76.2) at 77.5%. Council tax collection is broadly on target (86%) at 86.2%. Internal audit have presented two reports to audit committee giving 3/4 full levels of assurance to members on Council Tax and NNDR. 2016/17 Q4 Business Rates collection is slightly below target (98.4%) at 97.9%. Council tax collection is ahead of target (98.1%) at 98.4%. 2017/18 Q1 Business Rates collection is 29% which is ahead of target of 27.7% and ahead of the same point last year. Council Tax Collection is 30.2% which is 0.2% down on target and the same point last year. Q2 Business Rates collection is 51.9% which is just behind target of 52.3%. Council Tax Collection is 58% which is 0.2% down on target and the same point last year.</p> <p>The overall outturn performance on the collection fund is in line with expectations. The business rates collection rate is 98.3% against a target of 98.4% an increase year on year of 0.4%. The council tax collection rate achieving 98.5% an increase of 0.1% year on year and on the targetted KPI.</p>

4 Very Likely	3 High	12 Red	3 Likely	2 Medium	6 Amber
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
This risk links to the corporate objective Dacorum		The controls in place aim to mitigate this risk by closely		The successful and continuously improving	

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

<p>Delivers, focussing on an efficient and effective council.</p> <p>Customers could suffer personal hardship resulting from delays or errors in the processing of claims.</p> <p>Significant reputational risk associated with high-profile errors.</p> <p>Staff time spent on addressing unnecessary errors leads to duplication of effort and is an inefficient use of resources.</p> <p>Government subsidy for housing benefit expenditure is based on external audit certification of the claim made. There is financial risk if errors on cases are identified during their testing.</p> <p>Communications with claimants needs to be well written and jargon-free in order to reduce the risk of repeat queries which puts pressure on limited staff resources.</p>	<p>monitoring performance to assist with effective decision-making around resource allocation. This is a heavily process driven service area and close monitoring also helps to identify bottle necks in the process which need to be improved to optimise performance. By subjecting the process to this regular in-depth scrutiny the Service is able to reduce the probability of the risk crystallising, hence the reduction between the Inherent Risk score (4) and the Residual Risk score (2) after the controls have been taken into account.</p> <p>Quality checking and individual performance management is in place. These mean that each officer has targets for their personal productivity and accuracy, and information from quality checks is fed back in order to sustain improvement.</p> <p>Average time taken for processing new claims and changes in circumstances forms part of monthly monitoring.</p> <p>Processes are in place to expedite cases where the customer is vulnerable or facing eviction. These processes start when a case is identified within benefits, or by customer services, homelessness, housing etc.</p> <p>Monthly meetings are held between senior officers within Finance &amp; Resources to monitor detailed performance levels at each stage of the claims process.</p> <p>This enables intermediary targets to be set for discrete elements of the process, which in turn enables the more effective monitoring which has resulted in significantly improved performance over the last 6 months.</p>	<p>management of this risk can be seen in the improved performance of KPI RBF01a - Average Time Taken to Decide a New Benefit Claim. Performance for the full year 14/15 was 22.9 days, which was within the target of 23 days for the first time. This represents an improvement of 4.5 days over the 27.4 days average in 2014/15, and an improvement of 9.9 days against the 12/13 result of 32.8 days. It should be noted that these improvements have been achieved without additional resource. It has purely been the result of improved process design and increased efficiency. Average time taken to decide a new claim for Housing benefit is 22.7 days versus a target of 23. This is the first quarter since the same period last year where the target has been met. Average time taken to decide a change event in Housing Benefit is at 12.3 days versus a target of 13.0.</p> <p>Q2 performance has been very good in relation to new claims. The team have achieved 19.6 days versus a target of 23 days. Q3 performance has been very good. New claims are now being processed within 17.4 days versus a target of 23 days. This is an improvement of 9.2 days on the same period last year and 2.2 days improvement on the previous quarter. The average time taken to decide on a change event in Housing benefit is 10.8 days versus a target of 13 days. This is an improvement of 5.6 days on the same period last year and an improvement of 1.5 days on the previous quarter in this year. Q4 performance has been very good. New claims are now being processed within 18.4 days versus a target of 23 days. This is an improvement of 6.2 days on the same period last year. The average time taken to decide on a change event in Housing benefit is 4.9 days versus a target of 13 days. This is an improvement of 2.2 days on the same period last year and an improvement of 5.9 days on the previous quarter in this year. This reflects the inclusion of calculations relating to annual benefit uprating and rent changes but is still better than last year when similar</p>
--	---	--

changes occurred. Q1 performance for the average time taken to decide a new claim for Housing Benefit is 20.8 days versus a target of 20 days. This is still 1.9 days better than the same point last year. The average time taken to decide a change event is 8 days versus a target of 11.5 and is 4.3 days better than the same point last year. Q2 performance for the average time taken to decide a new claim for Housing Benefit is 17.4 days versus a target of 20 days. This is an improvement of 2.2 days on the same point last year. The average time taken to decide a change event is 9.9 days versus a target of 11.5 and is 5.4 days better than the same point last year. Q3 performance for the average time taken to decide a new claim has improved to 15.3 days against a target of 20 days. This is an improvement of 2.1 days on the previous quarter. The average time taken to decide a change event is 9.3 days against a target of 11.5 days. This shows an improvement of 0.6 days on the previous quarter. Q4 performance for the average time taken to decide a new claim increased to 22.6 days against a target of 20 days. This was an increase of 7.3 days on the previous quarter and reflects the resourcing shortages experienced during the year. The average time taken to decide a change event is 3.2 days against a target of 11.5 days. This shows an improvement of 1.7 days on the same period last year. 2017/18 Q1 performance for the average time taken to decide a new claim for Housing Benefit is 19.9 days versus a target of 20 days. This is 0.9 days better than the same point last year. The average time taken to decide a change event is 7.8 days versus a target of 10 days and is 0.2 days better than the same point last year. Q2 performance for the average time taken to decide a new claim for Housing Benefit is 24.3 days versus a target of 20 days. The average time taken to decide a change event is 11.5 days and is on target.

The 2017/18 outturn performance of the benefits service has exceeded the performance targets, with the

**Appendix A: Quarter 4 Finance and Resources Operational Risk Report.**

		average time taken to process a HB claim being 19.4 days, 0.6 days better than targetted and a 14% improvement on the 16/17 performance. The average time taken to decide a change in housing benefit is 4 days, 1 day quicker than the 5 day KPI.
