## Finance & Resources - David Skinner

### FR\_F02 Delays to Capital programme

<b>Category:</b> Financial	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	2 Medium	6 Amber	2 Unlikely	2 Medium	4 Green
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
<p>Many of the major projects within the Capital Programme are fundamental to delivery of the Council's corporate objectives. Therefore significant delays can impact on the achievement of the corporate plan.</p> <p>Financial decision-making is negatively affected if the timing of projects in the Capital Programme is wrong. This can result in lost investment income or increased interest costs as the Council moves closer to the point where it will need to borrow.</p> <p>The estimated delivery date is considered as part of the decision to allocate capital funds to one project over another. If estimated timings are not accurate, there is a risk that the allocation of funds is not being decided on appropriately.</p> <p>If inaccurate project management is tolerated, there is a risk that the culture of financial management across the</p>		<p>The controls that have been implemented to mitigate this risk target the robustness of capital bids both at the time they are submitted and throughout the delivery phase of the projects.</p> <p>In particular, scrutiny is focussed on those elements of the capital bid that experience indicates are the primary cause of delays to capital projects. These include</p> <ul style="list-style-type: none"> <li>• How robust are the assumptions on the estimated duration of the procurement exercise?</li> <li>• How realistic is the estimated time taken for contractors to deliver the works?</li> <li>• How realistic are the assumptions on officer availability to manage the project on time?</li> </ul> <p>The rationale behind this approach is that an increased</p>		<p>The 2013/14 Final Outturn showed that the slippage of capital projects was around 30% against the Original Budget approved by Members in February 2013. This is an improvement on previous years where slippage against Original Budget has been around 60%.</p> <p>As at the end of Quarter 2 2014/15 (the mid-point of the year), the capital forecast on the General Fund is broadly on budget, with no material slippage reported at this stage. Slippage on the HRA capital programme is forecast to be well below 5%.</p> <p>The budget position as at Quarter 3 was reported to Cabinet in February 2015. The report showed that forecast net slippage on the General Fund Capital Programme was low at around 3%. Forecast slippage on the HRA Capital Programme has, however, increased significantly since the Quarter 2 forecast, at around 25%.</p>

Council will be negatively affected which will have consequences for wider financial decision-making.

Not delivering major projects within the timeframe to which it has committed itself exposes the Council to reputational risk.

culture of challenge will lead to more realistic programming of future capital projects, and therefore a reduced likelihood of slippage.

The following controls are in place with a view to developing a culture of scrutiny and challenge for officers to improve the accuracy of future bids:

• Capital Strategy Steering Group (CSSG) comprising senior officers from across the Council required to challenge new bids for robustness ahead of recommendation to Members;

• Monthly meetings take place between accountants and budget holders to monitor progress against original timeframes and costs;

• Corporate Management Team (CMT) receive a monthly report on the progress of capital projects against anticipated timeframes;

• Performance Group comprising Chief Officers and cabinet Members receive a monthly report on the progress of current projects;

• Reports go to Cabinet and all Overview and Scrutiny Committees (OSC) every quarter. These reports have been redesigned to focus on the more immediate risk of in-year delivery, highlighting higher risk areas to invite closer scrutiny from Members.

The Provisional Outturn was reported to Cabinet in May 2015. The report showed that slippage against the full year budget on the General Fund Capital Programme was around 10%. Outturn on the HRA shows slippage of around 24%. These are addressed in more detail in the sign-off notes, below.

2014/15 Confirmed slippage into 2015/16 was £10.1m or 10% of the total approved capital programme according to the 2014/15 approved accounts.

KPI FIN06 General Fund capital is within GREEN tolerance at 89.5% of target.

KPI FIN07 HRA Capital is AMBER at 1% over budget.

Significant slippage is anticipated of £3,413k as reported in the quarter 1 monitoring report. This slippage is being monitored and reported with explanations for consideration. Specific focus is being given to the fleet replacement programme with plans to be refined over the summer. Further training is being added to the budget setting process to minimise repeat occurrences of slippage with greater scrutiny and challenge of plans to ensure delivery remains on track.

## FR\_F03 Variances in General Fund revenue budget

<b>Category:</b> Financial	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	2 Medium	6 Amber	2 Unlikely	2 Medium	4 Green
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
Accurate, well-controlled budgeting relates directly to the achievement of the Dacorum Delivers corporate objective, and indirectly, through the financial decision-making process, to the achievement of all of the Council's corporate objectives.  Inaccurate budgeting negatively affects the Council's ability to make evidence-based decisions. A significant underspend at year-end could indicate that funds have been needlessly diverted from a competing priority. A significant overspend at year-end could result in		The following controls aim to reduce the probability of there being a variance in the General Fund Revenue Budget by ensuring that there is strong challenge put to Budget Holders on the robustness of their assumptions, from a range of audiences.  It is intended that these controls will increase the opportunity for flawed assumptions to be exposed as soon as possible, as well as inculcating a stronger culture of financial management across the Council leading to continuous improvement in the setting of accurate		The Council's budgetary controls are assessed each year by Internal Audit. In January 2013, the Council received a 'Full' level of assurance.  A further Internal Audit on the Council's budgeting process, undertaken in September 2014, resulted in a 'Substantial' level of assurance. Despite this being a lower mark than the exceptional one achieved in the previous audit, it should be noted that it remains a good result.

June 2015

<p>reserves being used to support lower priority objectives. Both of these could result in reputational damage for the Council.</p> <p>Failure to address the causes of inaccurate budgeting could negatively impact the Council's culture of financial management, which in turn increases the risk of poor financial decision-making.</p>	<p>budgets.</p> <p>The annual budget-setting process consists of an ongoing scrutiny process in which senior officers from across the Council, together with the Financial Services team, challenge the following year's budget bids from Group Managers.</p> <p>This scrutiny process is augmented by the Budget Review Group (BRG), consisting of Chief Officer Group and representatives from the Portfolio Holder group, which provides early Member-level challenge.</p> <p>There are two opportunities for OSCs to scrutinise the budget proposals and directly question the relevant officers before the budget report is finalised and considered by Cabinet and Council.</p> <p>Once approved, in-year budget performance is managed through monthly meetings between accountants and budget holders, which underpin monthly reports to CMT and quarterly reports to Cabinet and OSCs.</p> <p>The Council's Financial Regulations provide a guide to all budget-holders and are subject to annual review.</p>	<p>The recommendations of the Internal Auditor that led to the reduced marking were not systemic in nature, and they do not pose a material threat to the overall control environment of the budget-setting process. Efforts have, however, been redoubled, and the causes of the recommendations have been addressed.</p> <p>An Internal Audit report on the Council's 'Main Accounting' function was presented to Audit Committee in February 2015, in which a 'Full' level of assurance was awarded. This audit covered a range of areas including integrity of transactions, manual adjustments, and year-end procedures. All of these areas contribute to the accuracy of the in-year monitoring reports that the Finance team is able to produce. Consequently, Members can draw assurance from this audit opinion that the chances of this risk crystallising are reduced by the robust financial management procedures the Council has in place.</p> <p>Final confirmed outturn for 2014/15 was within £48k of budget (after contributions to and from reserves) as reported to Audit committee and approved as part of the audited accounts and was consistent with the budget monitoring over the preceding year.</p>

FIN03 is AMBER and currently predicting a 4% overspend (£837k). This is being addressed with action plans introduced through the budget monitoring process setting out how and when the activity will be brought back in line with budget. Specifically the key pressures in Revenues and Benefits are being examined to explore the opportunities for costs reductions and efficiency savings and a review of the waste service reconfiguration is being commissioned with immediate steps being taken to look at the benefits following on from the new waste service.

## FR\_I02 Failure to optimise income generated by commercial assets

<b>Category:</b> Infrastructure	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	3 High	9 Amber	2 Unlikely	3 High	6 Amber
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
<p>The council has a significant portfolio of commercially let properties, which provides one of the council's largest sources of income.</p> <p>Council officers must attempt to maximise income from these assets whilst avoiding the risk of vacant properties and increasing bad debts, which could arise if rents are set too high, and would jeopardise the council's achievement of its corporate objectives of Regeneration and Dacorum Delivers.</p> <p>The continuing recession and the difficulties it brings for local businesses increases the likelihood of this risk crystallising.</p>		<p>The following controls aim to mitigate the risk of under-performance of the Council's commercial assets by maintaining good communication links between relevant Council services, and by regularly monitoring performance against targets (see KPIs CP01 and CP02) to ensure that underperformance is identified and addressed as quickly as possible. The existence of these controls has led to the 'Inherent Probability' of this risk occurring reducing from a score of 3, which is shown in the Residual Probability (i.e. after controls implemented) being a 1.</p> <p>Estates officers responsible for negotiating rent reviews hold monthly meetings with the Debtors team to track current bad debtors. This increases their understanding of the economic pressures businesses are facing, and</p>		<p>The year-end performance figures for 2013/14 demonstrate that occupation rates are above target (98.8% against a target of 95%), and that the level of arrears is also better than target (at 7.32% against a target of 9.5%).</p> <p>The year-end performance figures for 2014/15 demonstrate an occupation rate of 98.3% against a target of 95%. The level of arrears is at 6.5% against a target of 9.5%.</p> <p>Quarter 1 performance for 2015/16 are above target and demonstrate an occupation rate of 98.66 versus a target of 95%. The level of arrears has increased slightly to 7.3% versus a target of 9%.</p>	

# OPERATIONAL RISK REGISTER

June 2015

	<p>how it can impact on council income.</p> <p>There are currently Corvu performance targets to maintain the number of voids (empty properties) below 5%, and to keep the rent arrears below 10%. Failure to meet either of these targets would prompt further investigation.</p>

Investment property income is not currently forecast to achieve the ambitious income levels set within the budget. Income levels are being monitored to ensure that high occupation levels are being maintained and that income levels are being maximised. The commercial assets team is working very hard to bring all leases up full commercial levels and to push for a more robust service charge mechanism to maximise potential income. To increase this even more is a challenge given the current economic climate and the current balance of the asset portfolio.

**FR\_I04 Failure to maintain an effective business continuity plan for all relevant service areas**

<b>Category:</b> Infrastructure	<b>Corporate Priority:</b> Safe and Clean Environment	<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating

Managers have been asked to attend a business continuity conference in October that will help to inform the service planning exercise.		

## FR\_R01 Council Tax and Business Rates collections rates drop below budget

<b>Category:</b> Reputational	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	2 Medium	6 Amber	3 Likely	2 Medium	6 Amber
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
Distribution of collection fund to other preceptors is based on the budgeted collection level, if collection falls short this could lead to a cashflow issue within the Council's finances. The fund distribution is balanced after the end of the financial year.  Reputational risk if collection rate falls significantly – this could also impact on future years' council tax base leading to increased budget pressures.		The following controls aim to identify as quickly as possible if the Council is falling behind on its collection rates target for the year. If a problem is identified, the Council is then able to invoke a range of options to minimise the ongoing negative impact on collection.  Profiled monthly collection rates are monitored monthly - see KPIs RBF04 and RBF05. Reasons for variances are then investigated in order to address problems quickly as possible.		The full year Council Tax Collection Rate for 2013/14 (Performance Indicator RBF05) was 97.7% against a budget of 97.5%.  The full year Business Rates collection rate in 2014/15(Performance Indicator RBF04) was under budget at 98.1% against a target of 99%.  Q1 Council Tax collection rates is 30.2% versus a target of 30.1%	

# OPERATIONAL RISK REGISTER

June 2015

<p>Financial risk in relation to business rate retention scheme if rates collection falls below government set baseline.</p>	<p>Direct debit payment is recommended for all customers – a pre-filled instruction is sent to all non-DD payers with their annual bill or a first bill for a new taxpayer. The direct debit method reduce the risk of under-collection because it eliminates the risk of a payer forgetting to make a monthly payment.</p> <p>There is an active programme for taking formal recovery action against non payers.</p>	<p>Q1 Business Rates collection is 30.2% versus a target of 24.8%</p>

There is current review of existing processes with regular meeting monitoring performance and an improvement plan is in place to ensure that high standards of collection are maintained and if possible improved. Council tax is within the normal expected range based on previous years and quarters and Business rates collection is significantly ahead of previous years profile.

### FR\_R02 Delays and errors in the processing of Benefits claims

<p><b>Category:</b> Reputational</p>	<p><b>Corporate Priority:</b> Dacorum Delivers</p>	<p><b>Risk Owner:</b> David Skinner</p>	<p><b>Portfolio Holder:</b> Cllr Graeme Elliot</p>	<p><b>Tolerance:</b> Treating</p>	
<p><b>Inherent Probability</b></p>	<p><b>Inherent Impact</b></p>	<p><b>Inherent Risk Score</b></p>	<p><b>Residual Probability</b></p>	<p><b>Residual Impact</b></p>	<p><b>Residual Risk Score</b></p>

The performance for processing new claims and change events has been erratic in the first quarter. New processes are being embedded and targets are now being met. There is a current improvement plan that is starting to see improved performance and reduced costs. This will be monitored and reviewed to ensure customer service levels are improved and then sustained.
