This risk is a new addition to the Strategic Risk Register following a review by Members of Cabinet, the Leader of the Opposition, and Chief Officer Group in June 2015. The Operational Risk Registers will now be reviewed by officers to ensure that they explicitly reflect the policies and procedures identified within this strategic risk. They will be updated accordingly to ensure regular review and enable a clear route of escalation to strategic risk level should it be required.

As at quarter 2, 2015, there are no operational risk areas that warrant escalation to strategic level for Cabinet or Audit Committee consideration.

**C6 - The Council does not attract and retain the skill sets within its workforce that will enable it to maximise opportunities for delivering its services more efficiently through increased partnership working.**

Consequences		Current Controls		Assurance	
<p>Since the 'once and for all' settlement with government on the self financing of the HRA there have been major legislative and policy changes which, overall, have impacted detrimentally on the HRA Business Plan:</p> <ul style="list-style-type: none"> <li>• The re-invigoration of the RTB which has increased sales from around 15-20 per year to well over 100</li> <li>• The parallel introduction of the RTB 'one for one' replacement scheme where the Council can use receipts to build new homes but only to pay for 30% of costs (leaving the other 70% to be sourced)</li> <li>• A change to national rent policy which moved from RPI + 0.5% to CPI + 1% and ending the process of reaching target rents (leaving 60% of DBC properties below target)</li> </ul> <p>The government now propose two further changes which, if enacted, will further constrain the capacity of the HRA Business Plan viability:</p> <ul style="list-style-type: none"> <li>• A rent reduction of 1% per year for four years and a complete inability to make any progress towards convergence to target rents (a reduction of income of £30M over the first four years and over £500M over the lifetime of the HRA Business Plan)</li> <li>• Enforced sales of 'high value' council homes as they become vacant to fund Housing Association RTB</li> </ul> <p>The first of these changes is already in draft legislation</p>		<p>Elements of the changes are yet to apply (the rent changes start from April 2016) and the current controls – proper business planning, the disciplines of the MTFs, project and programme management arrangements, effective contract management, annual efficiency programmes and so on – reflect on the existing position and could provide sufficient mitigation to the long term business plan. The controls proposed for the new changes – if the proposed legislation is enacted – will only mitigate the impact to an extent as the scale of change, compounded with previous changes, are so significant. The controls are as follows:</p> <p>A complete review of the HRA Business Plan to spread the impacts over activities and over time. Initially, in order to deliver the current new build programme, this will be focused on a slowing down of the investment into current stock.</p> <p>Reducing the costs of running the service through efficiency and service redesign (in partnership with tenants and leaseholders).</p> <p>Improved procurement of services and renegotiation of existing contracts (though these have been procured within the last year or so and will restrict potential). This would include seeking shared services with other partners and models of operation which reduce the</p>		<p>A remodelling of the HRA Business Plan has been made to take account of the impact of the changes which will be considered by Cabinet (initially in November 2015 and periodically thereafter). This has demonstrated that the current new build programme can be completed. The ability to extend this further will depend on the success of the mitigations above.</p>	

# STRATEGIC RISK REGISTER

September 2015

and the assumption must be that it will happen. The consequences are very significant, and even with mitigation will continue to be so:  
The financial viability of the HRA to meet its current business plan objectives in full cannot be made due to loss of income and economies of scale as stock numbers diminish.  
Services to tenants will have to reduce, including proposed investment in the existing stock, to deal with the scale of resource reduction.  
The new build programme at its proposed scale will have to reduce, and possibly cease, in order to provide services to tenants and balance the books.  
That resources provided through RTB one for one replacement will be unused and lost to the Borough as it is returned to the Treasury as a result of the Council's inability to provide the 70% match funding and as Housing Associations reduce their supply of new affordable homes (as a result of the same legislative changes impacting on the Council).  
The Council's housing stock will progressively reduce through RTB, enforced sales and reduction in new build which will reduce its ability to meet the housing needs in the Borough and achieving the strategic objective of increasing the supply of affordable homes.

overheads of the HRA.  
Maximising the income to the HRA by altering use of parts of the stock (increased use of HRA stock for temporary accommodation and provision of low level care as part of a tenancy where rent controls do not apply).  
Altering the tenure mix of the current new build programme to include shared ownership and market sale in order to cross subsidise new rented provision. This could incorporate an element of affordable rent to increase revenue.  
Development of a partnership approach to use of RTB one for one replacement funding with local Housing Associations in order to minimise losses of resource to the Borough and to increase supply of new homes.  
Fully exploring the potential of a Local Housing Company to improve the cost of delivery of new homes alongside the benefits to the General Fund.  
Lobbying of government regarding the disproportionately severe impacts of the changes, though historical reasons, on DBC seeking some local amelioration.  
Ensuring that our intelligence on the changing position and on developments within the sector are fully up to date through membership of ARCH, liaison with CIH and other key bodies.  
The following controls are in place already with regard to the financial and strategic management of the HRA Business Plan:  
• An annual refresh of the HRA Business Plan reported

<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	

# STRATEGIC RISK REGISTER

September 2015

The government's austerity programme has led to reduced Local Authority funding over the last five years, resulting in the Council's need to find savings of £5m since 2010/11. Further funding reductions in excess of £3m are forecast over the next four years, which increase the risk of the Council being unable to deliver its vision for the borough, as detailed in the Corporate Plan.

([http://www.dacorum.gov.uk/docs/default-source/council-democracy/dacorum\\_corporateplan\\_web.pdf?sfvrsn=2](http://www.dacorum.gov.uk/docs/default-source/council-democracy/dacorum_corporateplan_web.pdf?sfvrsn=2))

Sustained funding reductions of this magnitude are not only a risk to the Council's capacity to grow and enhance the community, but more fundamentally they are a risk to the continued provision of high quality frontline services to residents.

If the Council is unable to deliver its vision or to protect its frontline service provision, it risks the following consequences:

Increased community hardship as the services provided to the most vulnerable residents in the borough are impacted, leading to delays in their accessing financial and residential help.

The impact of reducing standards of environmental services across the borough could lead to a less attractive environment and a loss of community identity and civic pride for residents.

The Council's Medium Term Financial Strategy and the HRA Business Plan are controls that mitigate the likelihood of this risk crystallising through the effective modelling of the future financial environment, which allows for more effective forward planning. These controls are detailed below, and have resulted in my reducing the inherent risk score from '4', Very Likely, to '3', 'Likely'.

The Council's Medium Term Financial Strategy (MTFS) details the financial implications of the Corporate Plan over a five-year period. It ensures that the Council is able to forecast likely income pressures in the medium-term, and optimise the balance between its financial resources and the delivery of its priorities. The MTFS is reviewed at least annually and is approved by Full Council, thereby providing the opportunity for Members to make informed amendments to the Corporate Plan on the basis of likely funding constraints. The current version is accessible via the following link:

<http://www.dacorum.gov.uk/docs/default-source/council-democracy/mtfs-july-cabinet-2015.pdf?sfvrsn=0>

The Council's Housing Revenue Account (HRA) Business Plan maps planned income and expenditure over a thirty-year period. Government legislation that can affect the Council's delivery of social housing is incorporated within the plan and forms the basis for

There were three internal audit reviews undertaken by Mazars during 2014/15, which provide an external view of the effectiveness of the controls implemented by the Council to manage the financial risks to delivering its priorities.

The audits on 'Efficiency Savings' and 'Main Accounting' received a Full level of assurance (the highest available), and the audit on 'Budgetary Control' received a Substantial level of assurance (the second highest available).

These internal audit opinions provide assurance that the Council is effectively controlling the processes that will enable it to derive value for money from its available resources, and therefore to maximise the opportunity for delivering its corporate objectives.

# STRATEGIC RISK REGISTER

September 2015

<p>Reputational damage as residents become dissatisfied with their experience of interacting with the Council. This risk is exacerbated by the growth of social media and the ability of residents to share their experiences with large numbers of people instantaneously.</p>	<p>informed strategic decision-making.</p> <p>The Council's reviewing of its Corporate Plan together with its Communications Strategy mitigate the impact of this risk, should it occur, by keeping residents informed of the pressures faced by the Council, and consequently by managing aspiration and expectation (detail below). On this basis, I have reduced the Impact score from '4', Severe, to '3', 'High.</p> <p>The Council reviews its Corporate Plan periodically to ensure that the vision for the borough remains relevant and realistic within the financial constraints outlined within the MTFS and the HRA plan. The aspirations of the Council and the community are managed through the Council's Communications Strategy both through social media, the local press and Digest.</p>

# STRATEGIC RISK REGISTER

September 2015

## General Fund

The MTFS approved by Cabinet in July 2015 identifies a savings target of £2.6m over 2016/17 – 2017/18. Whilst not significantly higher in cash terms than the Council has faced in previous years, this challenge is tougher because the more obvious savings have already been taken in order to balance the budgets in previous years. This view is supported by the Council's external auditors EY Ltd. Whilst acknowledging that the Council has 'established appropriate budgetary control procedures' in their Audit Results Report issued in July 2015, EY upgraded their assessment of the Council's 'Financial Standing' to a 'significant risk' on the basis of the savings targets identified in the current MTFS.

Furthermore, the Council's forecast overspend as at the end of the first quarter in 2015/16 provides evidence that the Council has already tightened its budgeting process to ensure increased value for money for its residents. The year-end underspends that have provided a cushion for the Council in previous years are unlikely to materialise at the end of 2015/16, which again emphasises the need for a more concerted savings programme.

The budget setting process for 2016/17 is now underway, with the Budget Review Group having met for the first time in August. Senior Officers are currently in the process of reviewing their services for next year with the objective of rethinking the means of delivery to ensure the protection of frontline services at reduced costs.

## Housing Revenue Account

The Chancellor's budget announcement in July 2015 that Council's must reduce social rent by 1% per annum for each of the next four years has resulted in the Council forecasting a reduction in rental income of £30m over the next four years. The implications of this reduction on the Council's plan are currently being worked through with Portfolio Holders, and will be reported to Cabinet during the next quarter.

### **I3 - The Borough does not secure sufficient investment in infrastructure to ensure that housing delivery and economic and community growth is sustainable in the longer term.**

September 2015

Consequences	Current Controls	Assurance
<p>The provision of infrastructure such as schools, health, transport and other facilities is crucial to sustainability of the local community and economy. Its funding, however, is increasingly complex and difficult as central government moves away from direct provision and expects the development process and local partnerships to deliver it. Failure to provide this infrastructure will have a number of damaging consequences:</p> <ul style="list-style-type: none"> <li>A reduction in the quality of life and opportunities for people in the Borough</li> <li>A serious constraint to economic growth with the impact on the contribution to service provision through Business Rates growth</li> <li>Increased community opposition to new developments, particularly housing, on the grounds that existing infrastructure will not cope</li> <li>Damage to the image of the area, worsening of community pride and social cohesion and reputational damage to the Council</li> </ul>	<p>Infrastructure is provided through the development process (s106 and Community Infrastructure Levy) and elements of funding which comes from central government (increasingly through the LEP, bidding and HCC). The responsibility for some infrastructure elements is through privatised arrangements (utilities) or arms-length government agencies such as Network Rail. The ability of the Council to control these processes is limited.</p> <p>The Council is able to promote the quantum, nature and timing of growth making it more likely that the infrastructure will be delivered. It is also able to promote partnerships and use its asset base and influence to stimulate desired development. Current controls include:</p> <p>Ensuring that the Local Plan (and its component elements such as the Core Strategy, site allocations, supporting policies and so on on) is up to date and sets out very clearly the requirements of proposed development. This promotes sustainable development by design, access and movement, materials. Use of masterplanning supports what is required to be delivered to produce sustainability on larger sites.</p> <p>The approved Council's Community Infrastructure Levy Policy and schedule (CIL) provides for the levels of contributions that must be made by developers and the purpose for which they will be spent. This also includes an element of CIL which can be spent by local communities and act to link growth directly with</p>	<p>The process for setting out development delivered is through the Annual Monitoring Report. The agreed process for CIL will see an annual report setting out income due, achieved and expenditure made on agreed infrastructure.</p> <p>Regular reports are made as set out above in controls.</p>
