

## FEEDBACK ON TRAINING & DEVELOPMENT

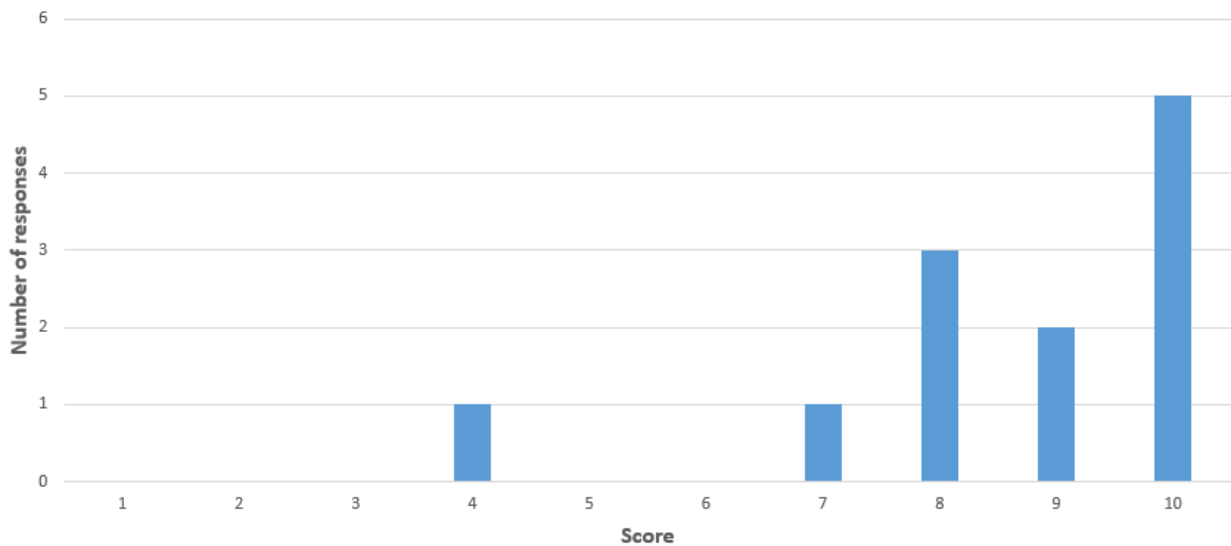

Attended: 16    Returned Feedback forms: 12

### Objectives:

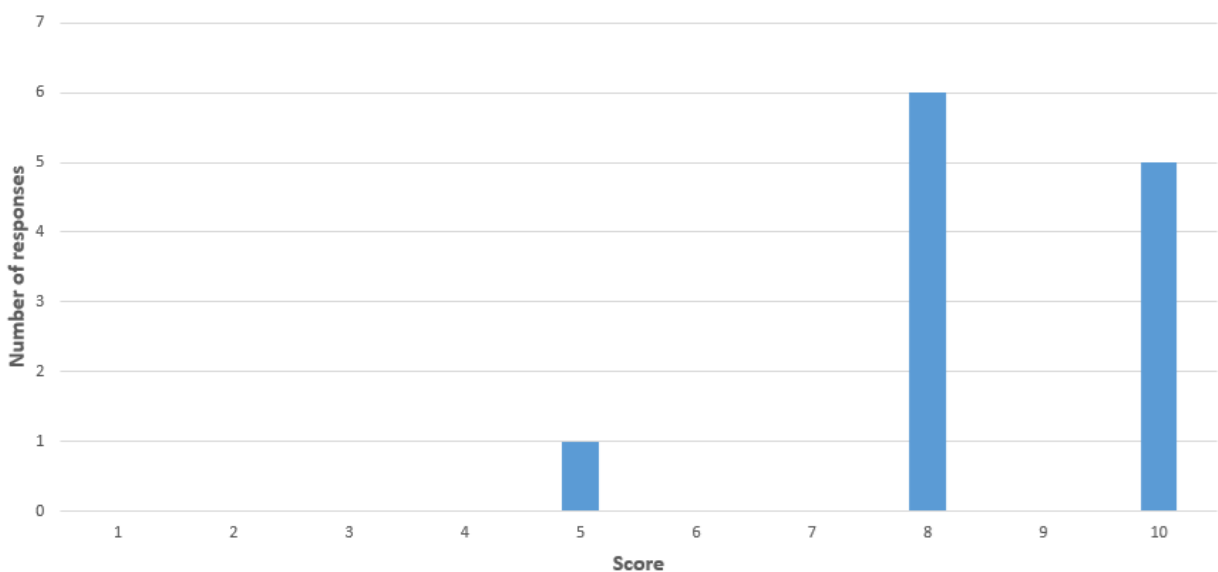

A short overview session on Emergency Awareness.  
The topics covered include:

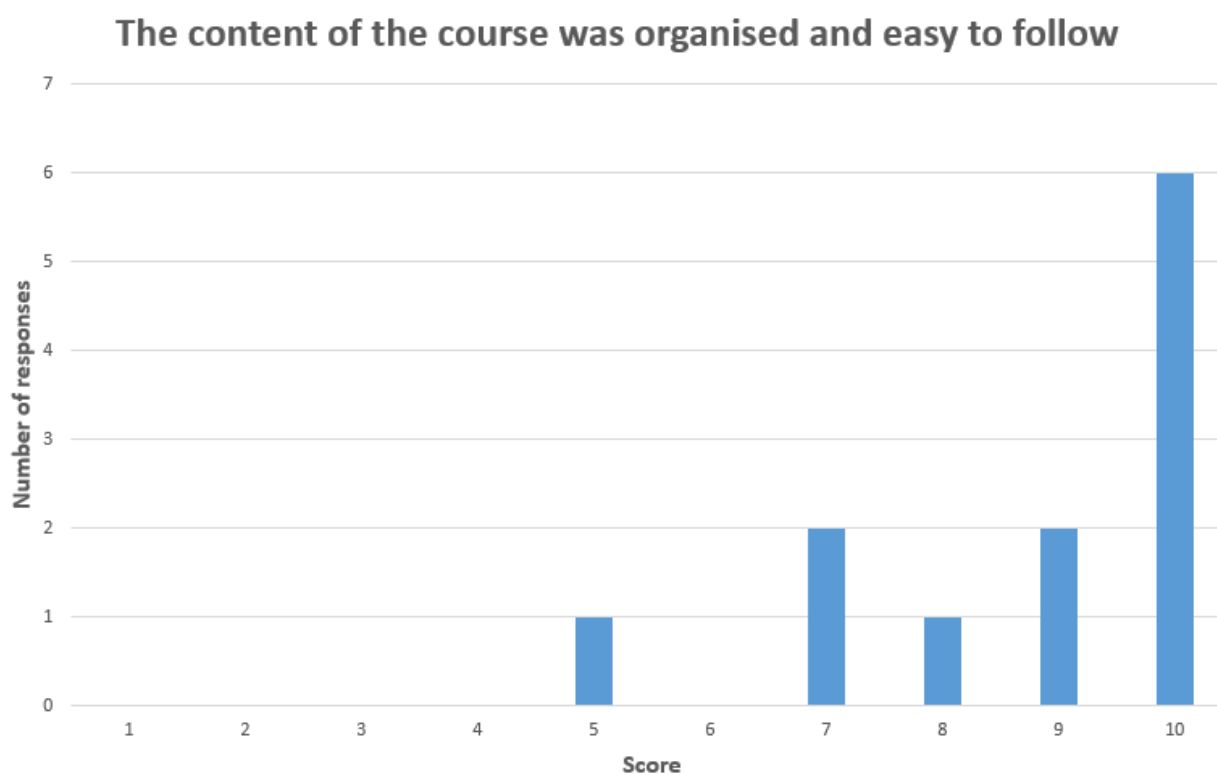

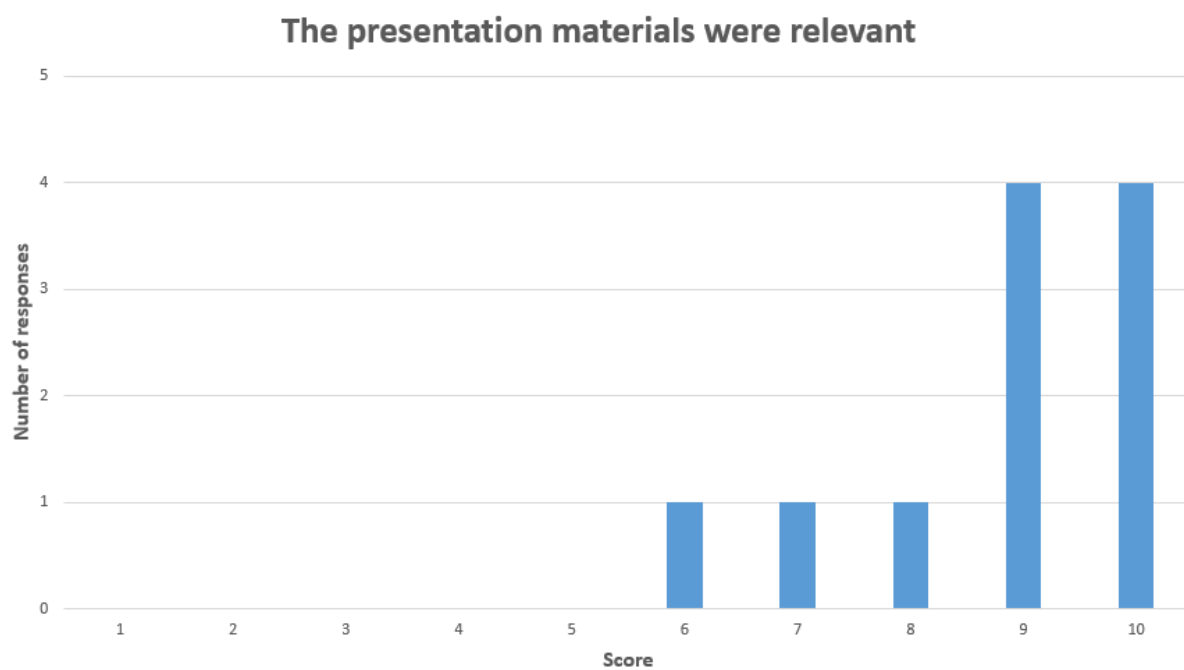

- A context of emergency planning within the UK
- An overview of the arrangements within Hertfordshire and how agencies work together
- How Dacorum prepares, plans and responds to incidents and within this detail of the type of role a councillor could fulfil in a response

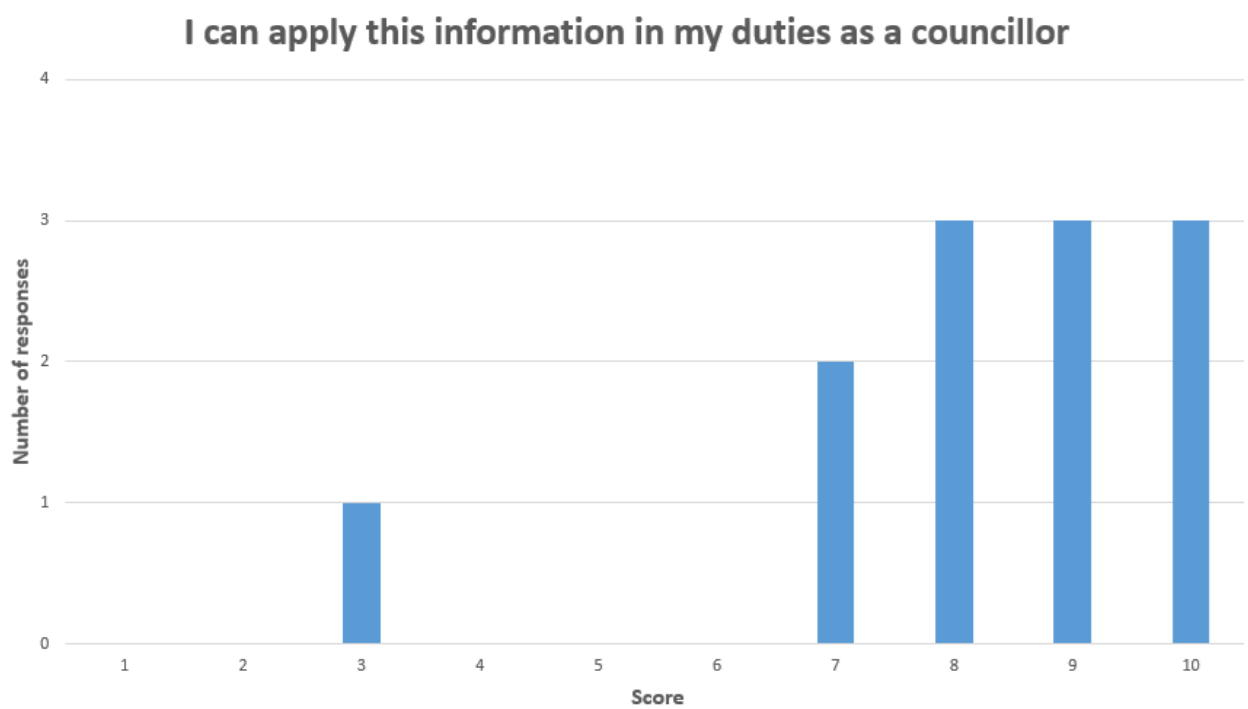

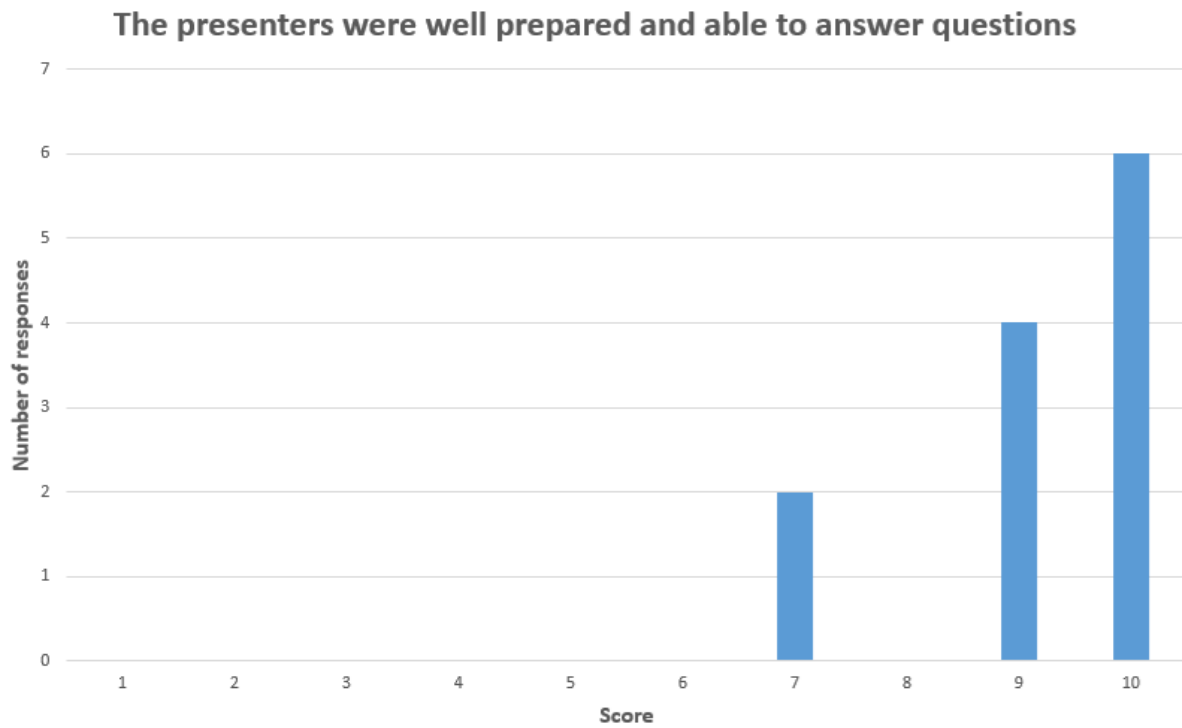

### The objectives of the session were met

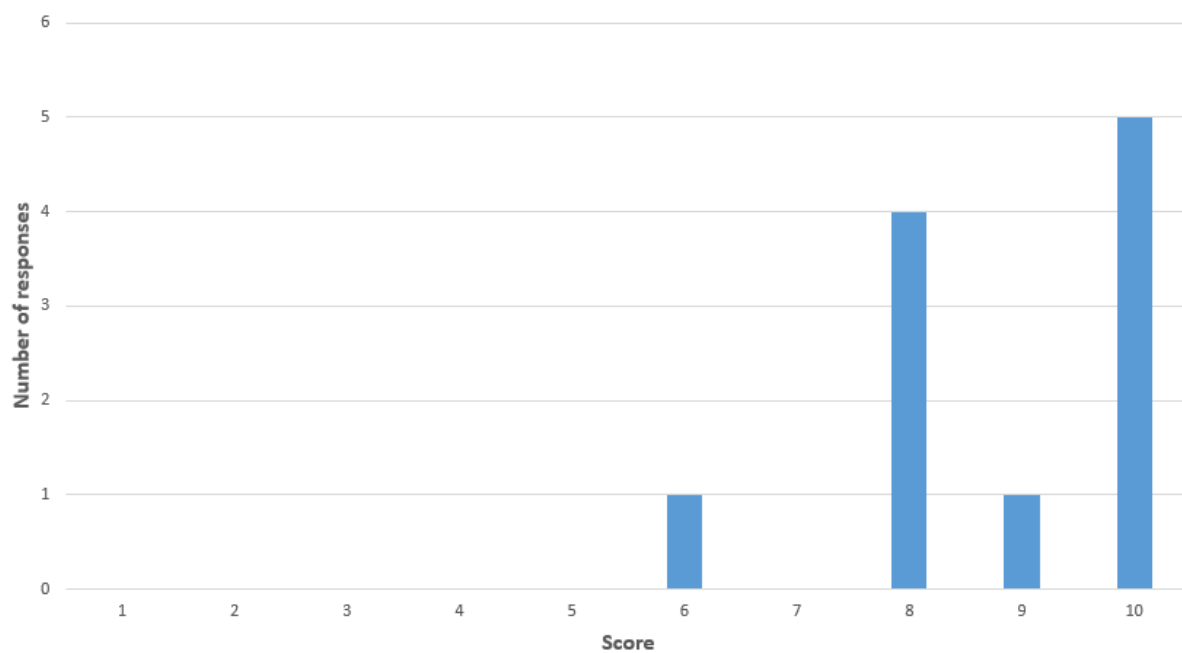

### The presenters were engaging

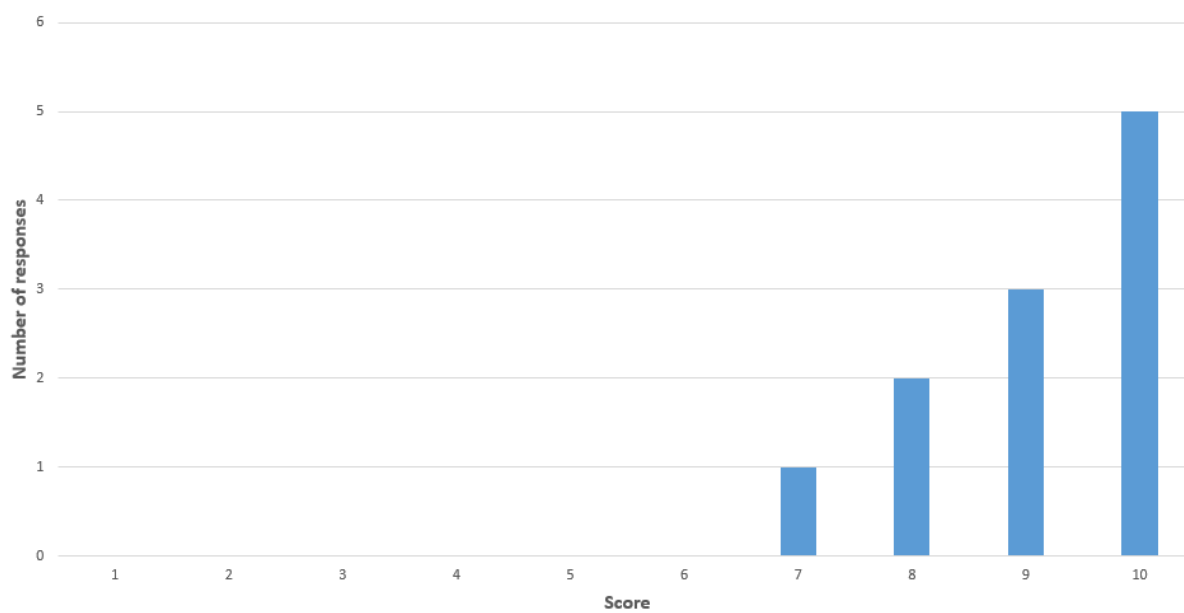

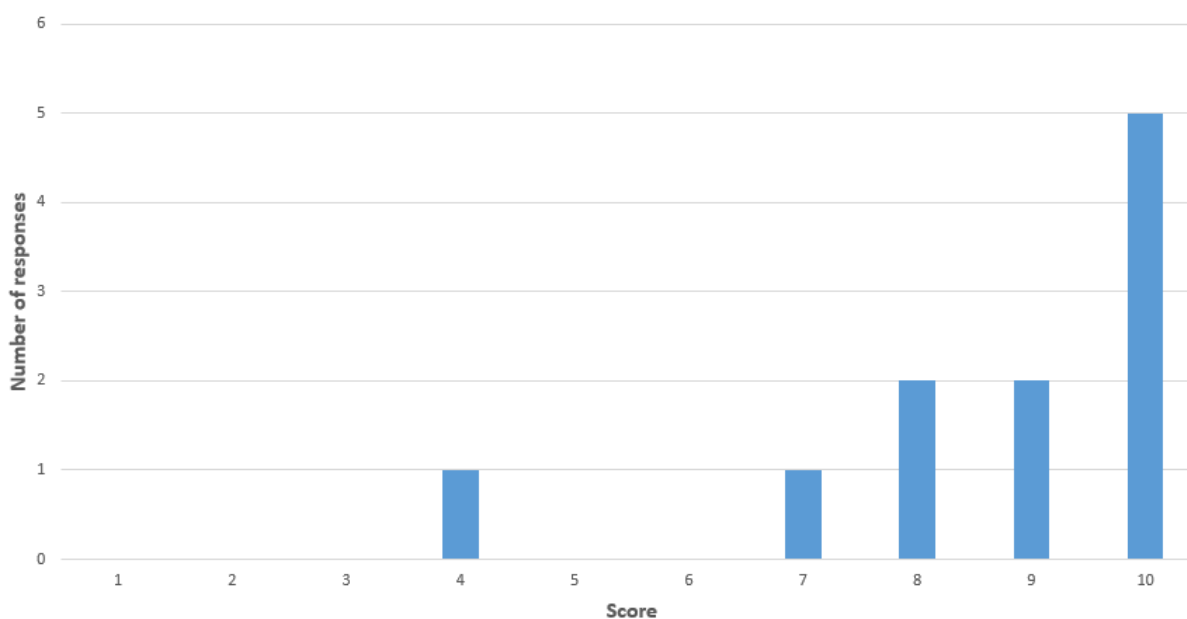

### The pace of the meeting was reasonable

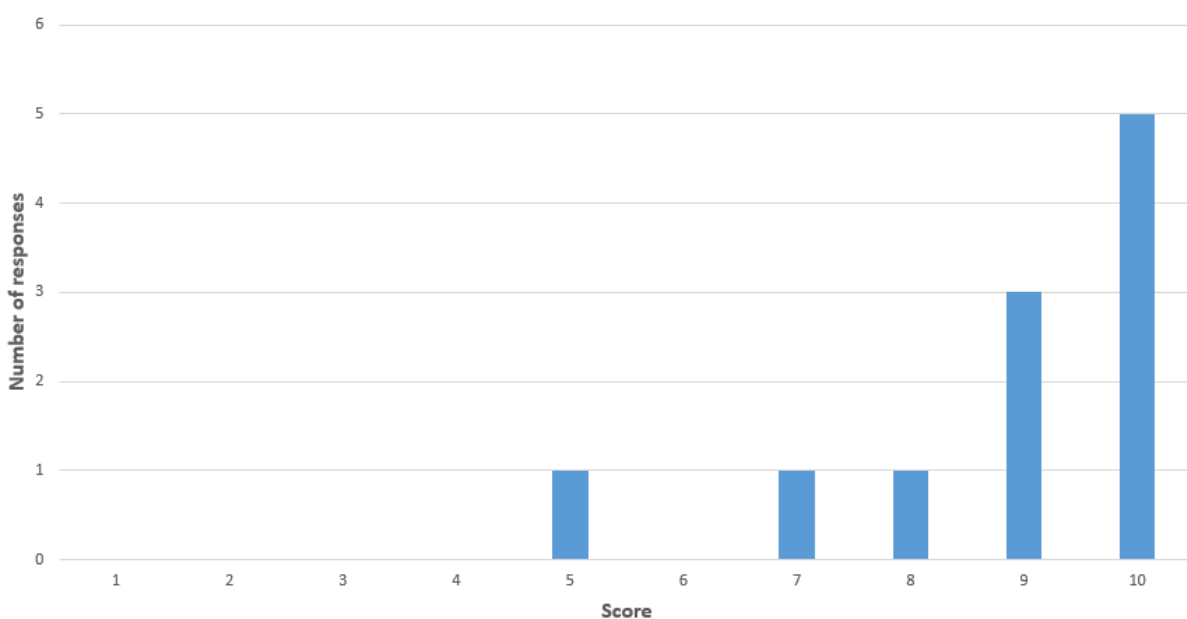

### I found the facilities suitable for the session

### There was a good use of examples

### Would you recommend this course to colleagues?

#### Comments:

- Well done!!! Interesting!!! Useful!!!
- Thanks for very informative answers to our questions.
- Would have liked names of contacts at DBC should it be needed.
- Microphone would be better. Not clear the communication lines up & down to us as councillors. Questions asked improved clarity of roles. Not much emphasis on the importance of information + informing.
- We had several questions and the presenters took their time to answer each one, using real life examples that gave good content. Sometimes, the questions made us veer off topic and the presenters should feel free to steer it back to the topic at hand.
- Well presented & informative.
