Policy / service / decision

Dacorum Local Plan 2024-2040 Revised Strategy for Growth

Description of what is being impact assessed

What are the aims of the service, proposal, project? What outcomes do you want to achieve? What are the reasons for the proposal or change? Do you need to reference/consider any related projects?

Stakeholders; Who will be affected? Which protected characteristics is it most relevant to? Consider the public, service users, partners, staff, Members, etc

It is advisable to involve at least one colleague in the preparation of the assessment, dependent on likely level of impact

Dacorum Local Plan 2024-2040 Revised Strategy for Growth.

This consultation is being carried out in accordance with Regulation 18 of the Town and Country Planning (Local Planning) (England) (Amendment) Regulations 2012 and the Environmental Assessment of Plans and Programmes Regulations 2004. This CIA focusses on the overarching development principles and the public engagement that is essential to this part of the local plan process

The requirement to prepare a Local Plan is set out in Section 13 Planning and Compulsory Purchase Act 2004 as amended, and Regulation 10A of the Town and Country Planning (Local Planning) Regulations 2012 requires Local Plans to be reviewed every five years.

Once adopted, the Local Plan will affect anyone who lives in, studies in, works in, visits, or has an interest in Dacorum, such as:

- The community (residents, businesses, voluntary and specialist groups (i.e. residents associations)
- Those who engage in planning matters in Dacorum
- Parish, Town and County Councils (including those surrounding Dacorum)
- Interested developers, landowners and agents
- Statutory consultees and various partners
- Council staff and elected members

The consultation carried out as part of the preparation of the Local plan, in accordance with the council's adopted Statement of Community Involvement (SCI) and Local Development Scheme (LDS) and this will involve the community and other organisations and interested parties at different stages of plan preparation.

The Local Plan seeks to promote social inclusion and ensure that all people (including vulnerable groups) have access to the services and opportunities that they may need such as housing, employment, public transport and community facilities (e.g. education, health and local shopping). This will work towards meeting the public sector equality duty as the needs of these individuals are being incorporated into the Local Plan.

Evidence

What data/information have you used to assess how this policy/service/decision might impact on protected groups?

(include relevant national/local data, research, monitoring information, service user feedback, complaints, audits, consultations, CIAs from other projects or other local authorities, etc.). You should include such information in a proportionate manner to reflect the level of impact of the policy/service/decision.

The CIA has been prepared following an iterative process. This involved identifying the likely impacts arising from each draft policy and then considering these impacts as positive, negative or neutral in light of the thrust of the relevant policy. This was set against known facts, information and evidence gathered from the Council's robust evidence base which underpins the Local Plan and which relates specifically to the protected characteristics listed in the Equality Act 2010.

Recommendations on ways by which the negative impacts could be removed or mitigated and the positive impacts strengthened were then sought. The draft policies affected are then reconsidered and re-examined again in the same iterative process until they emerge with no known negative impacts and became more acceptable.

Who have you consulted with to assess possible impact on protected groups? *If you have not consulted other people, please explain why? You should include such information in a proportionate manner to reflect the level of impact of the policy/service/decision.*

This version of the Plan is informed by the previous consultation stages as outlined below and evidence studies. In terms of the consultation on the Issues and Options consultation in 2017, and the Emerging Strategy for Growth Consultation in 2020, all consultees including organisations and individuals on the Council’s consultation database were emailed directly and notified on the consultation process. The following bodies which represent the interest of the protected groups were e mailed directly:

- 45 Clubs and societies
- 15 Community network groups
- 10 Disability groups
- 11 Ethnic minority groups
- 3 Local strategic partnership groups
- 18 Voluntary organisations

Analysis of impact on protected groups (and others)

The Public Sector Equality Duty requires Dacorum BC to eliminate discrimination, advance equality of opportunity and foster good relations with protected groups. Consider how this policy/service/decision will achieve these aims. Using the table below, detail what considerations and potential impacts against each of these using the evidence that you have collated and your own understanding. Based on this information, make an assessment of the likely outcome, **before** you have implemented any mitigation.

- *The PCs of Marriage and Civil Partnership and Pregnancy and Maternity should be added if their inclusion is relevant for impact assessment.*
- *Use “insert below” menu layout option to insert extra rows where relevant (e.g. extra rows for different impairments within Disability).*
