

**Dacorum Borough Council**

**Treasury Management  
Strategy Statement**

**Minimum Revenue Provision Policy Statement and Annual  
Investment Strategy**

**2024/25**

## **Introduction**

### **1.1 Background**

The Council is required to operate a balanced budget, which broadly means cash raised during the year will meet cash expenditure. A primary function of the Treasury Management service is to ensure cash flow is adequately planned, with cash being available when needed. Surplus monies are invested in low risk counterparties or instruments commensurate with the Council's low risk appetite, providing adequate liquidity initially, before considering investment return.

The second main function of the Treasury Management service is funding the Council's capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning, to ensure the Council can meet its capital spending obligations. Longer term cash management may involve arranging long or short term loans, or using longer term cash flow surpluses, or restructuring debt to meet Council risk or cost objectives.

The contribution the treasury management function makes is critical, as the balance of debt and investment operations ensure liquidity and hence the councils ability to meet spending commitments as they fall due, either on day-to-day revenue or in the medium term for larger capital projects. The treasury operations will see a balance of the interest costs of debt and the investment income arising from cash deposits affecting the available budget. Since cash balances generally result from reserves and balances, adequate security of sums invested is paramount, as a loss of principal will result in a loss to the General Fund Balance.

### **1.2 Clauses to be formally adopted**

1. Dacorum Borough Council will create and maintain the following for effective treasury management:
  - A treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities;
  - Suitable treasury management principles and practices (TMPPs), setting out the manner in which the organisation will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities.
2. Full Council will receive reports on its treasury management policies and activities. As a minimum this will include a mid-year review, an annual year- end report and at least two other performance reports during the financial year.

Responsibility is delegated to the Section 151 Officer for the implementation and regular monitoring of its treasury management policies and practices, and for the execution and administration of treasury management decisions. They will act in accordance with the policy statement and TMPPs and, if he/she is a CIPFA member, CIPFA's Standard of Professional Practice on Treasury Management.

3. This organisation nominates Cabinet to be responsible for ensuring effective scrutiny of the treasury management strategy, policies and monitoring before recommendation to Full Council.

### **1.3 Treasury Management Policy Statement**

The Council defines its treasury management activities as:

*The management of the organisation's borrowing, investments, cash flows, banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.*

The Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. The analysis and reporting of treasury management activities will focus on their risk implications for the organisation, and management of these risks.

The Council acknowledges effective treasury management will support the achievement of the Council's business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management and employing suitable comprehensive performance measurement techniques, within the context of effective risk management.

### **1.4 Reporting requirements**

#### **Capital Strategy**

The CIPFA revised 2021 Prudential and Treasury Management Codes requires all local authorities to prepare a capital strategy report, which provides:

- a high-level long term overview of how capital expenditure, capital financing and treasury management activity contribute to service provision
- an overview of how the associated risk is managed
- the implications for future financial sustainability.

#### **Treasury Management reporting**

The Council is currently required to receive and approve, various reports each year, which incorporate a variety of policies, estimates and actuals.

**Treasury Management Strategy Statement (this report)** - The first, and most important report, covers:

- the capital plans (including prudential indicators);
- a minimum revenue provision (MRP) policy (how residual capital expenditure is charged to revenue over time);
- the treasury management strategy (how the investments and borrowings are to be organised) including treasury indicators; and
- an investment strategy (the parameters on how investments are to be managed).

**A mid- year treasury management report (Quarter 2)** – This is a progress report and will update members on the capital position and amend prudential indicators and policies as necessary.

**An annual treasury report (Quarter 4)** – This provides details of a selection of actual prudential and treasury indicators and actual treasury operations compared to the estimates within the strategy.

**Financial monitoring report** – an update on treasury management performance and all forward-looking prudential indicators will be formally reported on at least two further occasions during the financial year.

**Scrutiny** – The above reports are required to be scrutinised before being recommended to the Council. Cabinet undertakes this role supported by the Audit Committee and 3 Overview and Scrutiny groups where relevant.

## **1.5 Treasury Management Strategy for 2024/25**

The strategy for 2024/25 covers two main areas:

### 1. Capital issues

- the capital expenditure plans and the associated prudential indicators;
- the minimum revenue provision (MRP) policy.

### 2. Treasury management issues

- the current treasury position;
- treasury indicators which limit the treasury risk and activities of the Council;
- prospects for interest rates;
- the borrowing strategy;
- policy on borrowing in advance of need;
- debt rescheduling;
- the investment strategy;
- creditworthiness policy; and
- the policy on use of external service providers.

These elements cover the requirements of the Local Government Act 2003, the CIPFA Prudential and Treasury Management Codes, DLUHC MRP and Investment Guidance.

## **1.6 Training**

The CIPFA Code requires Councillors and Officers with responsibility for treasury management have appropriate skills and adequate training.

The Council will carry out the following to monitor and review knowledge and skills:

- Record attendance at training and ensure action is taken where poor attendance is identified.
- Ensure learning plans for treasury management officers and relevant Council members.
- Require treasury management officers and SLT/council members to undertake self-assessment against the required competencies.
- Through regular communication encourage Officers, SLT and Council members to highlight training needs on an ongoing basis.

Training needs of treasury management officers are regularly reviewed as part of the Council's performance development reviews. Records of Member training is kept by Member Support.

## 1.7 Treasury management consultants

The Council uses Link Group as its external treasury management advisors. The Council recognises the value in employing external treasury management services to access specialist skills and resources. Responsibility for treasury management decisions remain with the organisation at all times and will ensure undue reliance is not placed upon our external advisors. All decisions will be undertaken with regards to all available information, including, but not solely, our treasury advisers.

The Council will ensure the terms of their appointment and methods by which their value are assessed are properly agreed and documented, and subject to regular review.

## 2. The Capital Prudential Indicators 2024/25 – 2027/28

The Council's capital expenditure plans are the key driver of treasury management activity. The capital expenditure plan is reflected in the prudential indicators, which are designed to assist members' overview and confirm capital expenditure plans are prudent, affordable and sustainable.

### 2.1 Capital expenditure

The first prudential indicator is a summary of the Council's capital expenditure plans, both those agreed previously, and those forming part of this budget cycle. The table below summarises the capital expenditure plans and financing. Any shortfall of resources results in a borrowing need. Members are asked to approve the capital expenditure forecast:

**Table 1: Capital Expenditure**

<b>Capital expenditure</b>	<b>2022/23 Actual £m</b>	<b>2023/24 Forecast £m</b>	<b>2024/25 Estimate £m</b>	<b>2025/26 Estimate £m</b>	<b>2026/27 Estimate £m</b>	<b>2027/28 Estimate £m</b>
General Fund*	2.199	8.392	10.621	21.543	23.241	6.697
HRA	34.884	58.982	60.192	41.183	29.257	25.421
<b>Total</b>	<b>37.083</b>	<b>67.374</b>	<b>70.814</b>	<b>62.725</b>	<b>52.497</b>	<b>32.118</b>
<b>Financed by:</b>						
Capital grants & S106	5.478	12.615	8.185	0.741	4.041	1.341
Capital receipts & reserves	31.605	32.695	34.351	26.271	14.515	13.617
Internal Borrowing- General Fund	0	0.000	0.000	12.443	19.200	0.473
External Borrowing- General Fund	0	0.000	0.000	0.000	0.000	4.883
Internal Borrowing- HRA	0	22.064	13.740	5.000	0.000	0.000
External Borrowing-HRA	0	0.000	14.538	18.271	14.742	11.804
<b>Net financing need for the year</b>	<b>37.083</b>	<b>67.374</b>	<b>70.814</b>	<b>62.725</b>	<b>52.497</b>	<b>32.118</b>

\* excludes £6m loan treated as capital expenditure in 2022/23.

The financing need excludes other long-term liabilities, such as leasing arrangements. Capital Expenditure excludes Capital loans to other bodies.

## 2.2 The Council's borrowing need (the Capital Financing Requirement)

The second prudential indicator is the Council's Capital Financing Requirement (CFR). The CFR is the total capital expenditure which has not yet been paid for from either revenue or capital resources. It is a measure of the Council's underlying borrowing need. Capital expenditure, which is not immediately paid for, increases the CFR.

The CFR does not increase indefinitely, as the minimum revenue provision (MRP) is a statutory annual revenue charge which reduces the indebtedness in line with each asset's life, and so charges the economic consumption of capital assets as they are used.

The CFR includes long term liabilities like finance leases. Whilst these increase the CFR, and therefore the Council's borrowing requirement, they include a borrowing facility so the Council is not required to separately borrow.

The Council is asked to approve the CFR projections below:

**Table 2: Capital Financing Requirement**

	2022/23 Actuals £m	2023/24 Estimate £m	2024/25 Estimate £m	2025/26 Estimate £m	2026/27 Estimate £m	2027/28 Estimate £m
<b>Capital Financing Requirement</b>						
CFR – non housing	18.272	17.930	18.587	30.699	49.318	53.709
CFR – housing	331.077	350.832	375.775	394.604	403.708	410.402
<b>Total CFR</b>	<b>349.349</b>	<b>368.761</b>	<b>394.363</b>	<b>425.302</b>	<b>453.026</b>	<b>464.111</b>
<b>Movement in CFR</b>		<b>19.412</b>	<b>25.601</b>	<b>30.940</b>	<b>27.723</b>	<b>11.085</b>
<b>Movement in CFR represented by:</b>						
Net financing need for the annual approved Capital Programme		22.064	28.278	35.714	33.941	17.160
Net financing need for the year-Loans for Capital Purposes		(0.010)	(0.010)	0	0	0
Accounting changes in lease treatments		0	1	0	0	0
General Fund Minimum Revenue Provision & HRA Debt Repayment		(2.642)	(3.667)	(4.774)	(6.218)	(6.075)
<b>Movement in CFR</b>		<b>19.412</b>	<b>25.601</b>	<b>30.940</b>	<b>27.723</b>	<b>11.085</b>

## 2.3 Liability Benchmark (LB)

The Council is required to estimate and measure the LB for the forthcoming financial year and the following two financial years, as a minimum. There are four components to the LB: -

1. Existing loan debt outstanding: the Authority's existing loans still outstanding in future years.
2. Loans CFR: calculated in accordance with the definition in the Prudential Code and projected into the future based on approved prudential borrowing and planned MRP.
3. Net loans requirement: shows the Authority's gross loan debt less treasury management investments at the last financial year-end, projected into the future and

based on its approved prudential borrowing, planned MRP and any other major cash flows forecast.

4. Liability benchmark (or gross loans requirement): this equals net loans requirement plus short-term liquidity allowance.

The Council is asked to approve the LB projections below:

## 2.4 Minimum revenue provision (MRP) policy statement

The Council is required to pay off an element of the Capital Financing Requirement through a charge to revenue known as the minimum revenue provision (MRP). DLUHC regulations require full Council to approve an MRP Statement in advance of each year. A variety of options for calculating MRP are allowed as long as there is a prudent provision. The Council is recommended to approve the following MRP Statement:

The MRP policy will be:

Asset life method – MRP based on the estimated life of the assets, in accordance with regulations;

This option provides for a reduction in the borrowing need over approximately the asset's life. This approach is consistent with the MRP policy in previous years.

There is no requirement on the HRA to make a minimum revenue provision but a charge for depreciation must be made. Repayments included in finance leases are applied as MRP.

MRP Overpayments/Voluntary Revenue Provisions (VRP) - DLUHC MRP Guidance allows any charges made over the statutory MRP, can be reclaimed in later years if necessary or prudent. In order to be reclaimed for use in the budget, this policy must disclose historical cumulative overpayments made. Up until the 31 March 2024, the total VRP overpayments are £0.481m.

The Council has and may provide loans to Parish Councils and other public sector bodies for capital purposes. The Capital Financing Requirement (CFR) will increase by the principal amount of the loan. The loan will be repaid in full and may include interest. The repayment of principal is classed as a capital receipt, and the CFR will reduce accordingly. As this is, a temporary arrangement and the funds will be returned in full, there is no need to set aside prudent provision to repay the debt liability in the interim, so there is no MRP charge.

## 2.5 Core funds and expected investment balances

The use of funds to finance capital expenditure or support the revenue budget will have an ongoing impact on investments, unless supplemented from new sources (asset sales etc.). Detailed below are estimates of the year end balances and anticipated day to day cash flow balances. These balances are available to the Council to support any internal borrowing requirements for the financing of the Council's capital programme.

**Table 3: Cash Balances**

Year End Resources	2022/23 Actual £m	2023/24 Estimate £m	2024/25 Estimate £m	2025/26 Estimate £m	2026/27 Estimate £m	2027/28 Estimate £m
Fund balances / reserves	53.625	56.590	59.688	62.931	66.582	70.786
Capital receipts	40.394	29.761	16.665	9.723	12.585	15.690
Provisions	8.955	9.000	9.000	9.000	9.000	9.000
Other	0.000	0.000	0.000	0.000	0.000	0.000
<b>Total core funds</b>	<b>102.974</b>	<b>95.351</b>	<b>85.353</b>	<b>81.654</b>	<b>88.168</b>	<b>95.476</b>
Working capital		5.000	5.000	5.000	5.000	5.000
(Under)/over borrowing		(33.765)	(47.489)	(64.935)	(83.898)	(83.760)
<b>Expected investments</b>		<b>66.586</b>	<b>42.864</b>	<b>21.718</b>	<b>9.269</b>	<b>16.716</b>

## 2.6 Affordability prudential indicators

Prudential indicators are required to assess the affordability of the capital investment plans on the Council's overall finances. The Council is asked to approve the following indicators:

## 2.7 Ratio of financing costs to net revenue stream

This indicator identifies the trend in the cost of capital (borrowing and other long-term costs net of investment income) against the net revenue stream.

**Table 4: Ratio of Borrowing to Revenue.**

	2022/23 Actual	2023/24 Estimate	2024/25 Estimate	2025/26 Estimate	2026/27 Estimate	2027/28 Estimate
General Fund	-3.20%	-0.32%	-0.93%	-1.17%	-1.12%	-0.50%
HRA	19.14%	17.77%	20.68%	22.28%	23.71%	23.15%

## 2.8 Table 5: HRA ratios

	2022/23 Actual	2023/24 Estimate	2024/25 Estimate	2025/26 Estimate	2026/27 Estimate	2027/28 Estimate
HRA debt £m	331.08	328.77	339.97	353.80	362.90	369.60
HRA revenues £m	61.633	71.067	71.735	73.899	76.615	78.475
Ratio of debt to revenues %	537%	463%	474%	479%	474%	471%
Number of HRA dwellings	10,051	10,086	10,225	10,305	10,285	10,265
Debt per dwelling £	32,940	32,596	33,249	34,333	35,285	36,006

## 3. Borrowing

The treasury management function organises the Council's cash in accordance with relevant professional codes, so sufficient cash is available to meet capital expenditure plans set out in section 2 and in the Council's capital strategy. This involves both the organisation of the cash flow and, where capital plans require, appropriate borrowing facilities. The strategy covers the relevant treasury / prudential indicators, the current and projected debt positions and the annual investment strategy.

### 3.1 Current portfolio position

The overall treasury management portfolio at 31<sup>st</sup> March 2023 and 31<sup>st</sup> December 2023 are shown below for both borrowing and investments.

**Table 6: Treasury Portfolio**

	TREASURY PORTFOLIO			
	Actual 31.3.23 £k	Actual 31.3.23 %	Current 31.12.23 £k	Current 31.12.23 %
<b>Treasury investments</b>				
Banks	58,418	56%	34,678	29%
Building societies – rated	27,000	26%	12,500	10%
DMADF (HM Treasury)	10,000	10%	47,000	39%
Money market funds	8,250	8%	25,000	21%
<b>Total managed in house</b>	<b>103,668</b>	<b>100%</b>	<b>119,178</b>	<b>100%</b>
<b>Total managed externally</b>	<b>0</b>	<b>0%</b>	<b>0</b>	<b>0%</b>
<b>Total treasury investments</b>	<b>103,668</b>	<b>100%</b>	<b>119,178</b>	<b>100%</b>
<b>Treasury external borrowing</b>				
PWLB	337,446	100%	337,446	100%
<b>Total external borrowing</b>	<b>337,446</b>	<b>100%</b>	<b>337,446</b>	<b>100%</b>
<b>Net treasury investments / (borrowing)</b>	<b>(233,778)</b>	<b>0</b>	<b>(218,268)</b>	<b>0</b>

The Council's forward projections for borrowing are summarised below. The table shows the actual external debt, against the underlying capital borrowing need, (the Capital Financing Requirement - CFR), highlighting over or under borrowing.

One key indicator is the Council must ensure its gross debt does not, except in the short term, exceed the total CFR in the preceding year plus the estimates of any additional CFR for 2024/25 and the following 2 financial years. This allows flexibility for some early borrowing for future years, but ensures borrowing is not undertaken for revenue purposes or to generate a profit. The Council complies.

**Table 7: Financing and Debt Projections**

	2022/23 Actual £m	2023/24 Estimate £m	2024/25 Estimate £m	2025/26 Estimate £m	2026/27 Estimate £m	2027/28 Estimate £m
<b>External Debt</b>						
Debt at 1 April	349.680	337.446	334.808	345.685	359.179	367.940
Expected change in Debt	(12.233)	(2.638)	10.877	13.494	8.761	11.223
Other long-term liabilities	0.188	0.188	1.188	1.188	1.188	1.188
<b>Actual gross debt at 31 March</b>	<b>337.634</b>	<b>334.996</b>	<b>346.873</b>	<b>360.367</b>	<b>369.128</b>	<b>380.351</b>
The Capital Financing Requirement	349.349	368.761	394.363	425.302	453.026	464.111
(Under)/over borrowing	<b>(11.715)</b>	<b>(33.765)</b>	<b>(47.489)</b>	<b>(64.935)</b>	<b>(83.898)</b>	<b>(83.760)</b>

\* Under borrowing is a term used to highlight that the organisation is intending to utilise and/or currently using cash balances to borrow internally to support the financing requirement, rather than external loans.

The Council's chief objective when borrowing is to strike an appropriately low risk balance between securing low interest costs and achieving certainty of those costs over the period for which funds are required.

There was a substantial rise in the cost of both short-and long-term borrowing over the last 18 months. Bank rates rose by 1% from 4.25% at the beginning of April to 5.25% at the end of September. Bank rate was 3% higher than at the end of September 2022.

The current strategy in the short term will be to delay external borrowing, and to fund capital expenditure, which is not met by capital receipts and grants, from internal cash resources. This reduces the net cost to the council when borrowing rates are higher than investment rates and reduces the amount of surplus cash for which suitable investment counterparties must be found until the cash is required. As such there is no new external borrowing requirement in 2024/25.

### **3.2 Treasury Indicators: Limits to borrowing activity**

- a) **The operational boundary.** This is the limit beyond which external debt is not normally expected to exceed.

**Table 8: Operational Boundary**

Operational boundary	2023/24	2024/25	2025/26	2026/27	2027/28
	Estimate £m	Estimate £m	Estimate £m	Estimate £m	Estimate £m
Debt	337.446	345.685	359.179	367.940	379.163
Other long term liabilities	0.188	1.188	1.188	1.188	1.188
<b>Total</b>	<b>337.634</b>	<b>346.873</b>	<b>360.367</b>	<b>369.128</b>	<b>380.351</b>

**The authorised limit for external debt.** This represents a limit beyond which external debt is prohibited and needs to be set or revised by full Council. It reflects the level of external debt, which, while not desired, could be afforded in the short term, but is not sustainable long term. The Council is asked to approve the following authorised limits to 2027/28:

**Table 9: Authorised Limit**

Authorised limit	2023/24	2024/25	2025/26	2026/27	2027/28
	Estimate £m	Estimate £m	Estimate £m	Estimate £m	Estimate £m
Debt	400	420	420	450	450
Other long term liabilities	10	10	10	10	10
<b>Total</b>	<b>410</b>	<b>430</b>	<b>430</b>	<b>460</b>	<b>460</b>

The table below shows projections of CFR and borrowing:

**Table 10: CFR and Borrowing projections**

Capital Financing Requirement including leases						
	Actual	Estimate	Estimate	Estimate	Estimate	Estimate
	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28
	£m	£m	£m	£m	£m	£m
HRA CFR	331.077	350.832	375.775	394.604	403.708	410.402
GF CFR	18.272	17.930	18.587	30.699	49.318	53.709
<b>Total CFR</b>	<b>349.349</b>	<b>368.761</b>	<b>394.363</b>	<b>425.302</b>	<b>453.026</b>	<b>464.111</b>
External Borrowing	337.446	334.808	345.685	359.179	367.940	379.163
Other long term liabilities	0.188	0.188	1.188	1.188	1.188	1.188
<b>Total Debt</b>	<b>337.634</b>	<b>334.996</b>	<b>346.873</b>	<b>360.367</b>	<b>369.128</b>	<b>380.351</b>
Authorised Limit*		410.000	430.000	430.000	460.000	460.000
Operational Boundary		337.634	346.873	360.367	369.128	380.351

### 3.3 Maturity Structure of borrowing

These gross limits are set to reduce the /Council's exposure to large fixed rate sums falling due for refinancing, and are required for upper and lower limits.

The Council is asked to approve the following treasury indicators and limits:

**Table 11: Borrowing Maturity Schedule**

<b>Maturity structure of fixed interest rate borrowing 2024/25</b>		
	Lower	Upper
Under 12 months	0.00%	2.00%
12 months to 2 years	0.00%	2.00%
2 years to 5 years	0.00%	6.00%
5 years to 10 years	2.00%	20.00%
10 years and above	5.00%	70.00%
<b>Maturity structure of variable interest rate borrowing 2024/25</b>		
	Lower	Upper
Under 12 months	0.00%	1.00%
12 months to 2 years	0.00%	2.00%
2 years to 5 years	0.00%	2.00%
5 years to 10 years	0.00%	0.00%
10 years and above	0.00%	0.00%

### 3.4 Borrowing strategy

The Chief Finance Officer will monitor interest rates and liaise with the treasury advisers to adopt a pragmatic approach to changing circumstances, specifically in relation to refinancing, delaying capital expenditure and taking on new borrowing. Decisions will be reported to the appropriate governing body in a timely manner.

### 3.5 Policy on borrowing in advance of need

The Council will not borrow more than, or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure value for money and that the Council can ensure security of such funds.

Risks associated with any borrowing in advance will be subject to prior appraisal and subsequent reporting through the mid-year, annual or quarterly reporting.

### 3.6 Prospects for Interest Rates

The Councils Treasury Advisors provided the following view for interest rates on 08 January 2024. The Bank Rate is the Bank of England base rate of interest.

Link Group Interest Rate View 08.01.24

### 3.7 Investment and borrowing rates

LINK Group forecast for interest rates reflects a view that the Monetary Policy Committee (MPC) would be keen to keep the Bank Rate at 5.25% until at least the second half of 2024 to help manage inflation. They forecast a mild recession over the coming months although recent GDP data has not shown this. Reducing interest rates by the MPC will be a fine judgment: cut too soon, and inflationary pressures may increase further; cut too late and any downturn or recession may be prolonged. The overall longer-run forecast is for the bank rate and PWLB rates is to fall during the next 3 years, as inflation starts to fall.

### 3.8 Debt rescheduling

Debt rescheduling involves the Council paying off its debt prior to the agreed maturity date. Rescheduling of current borrowing in our debt portfolio may be considered whilst premature redemption rates remain elevated but only if there is surplus cash available to facilitate any repayment, or rebalancing of the portfolio to provide more certainty is considered appropriate.

If rescheduling and/or early repayment of existing debt is to be undertaken, this will be reported to Cabinet at the earliest meeting following completion of the repayment.

### 3.9 New financial institutions as a source of borrowing and / or types of borrowing

The Council's current source of borrowing is the PWLB. Other borrowing sources available to the Council to finance its capital programme are:

- Local authorities
- Financial institutions
- Municipal Bonds Agency

Our advisors keep us informed as to the relative merits of each of these alternative funding sources. This Authority may use these alternative sources of borrowing as and when appropriate.

## 4. Annual Investment Strategy

### 4.1 Investment policy

The DLUHC and CIPFA have extended the meaning of 'investments' to include both financial and non-financial investments. This report deals solely with treasury (financial) investments, (as managed by the treasury management team). Non-financial investments, essentially the purchase of income yielding assets, are covered in the Capital Strategy.

The Council's investment policy has regard to the following: -

- DLUHC's Guidance on Local Government Investments ("the Guidance")
- CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes 2021 ("the Code")
- CIPFA Treasury Management Guidance Notes 2021.

The Council's investment priorities will be security first, liquidity second and then yield.

The above guidance from DLUHC and CIPFA place a high priority on the management of risk. This authority has adopted a prudent approach to managing risk and defines its risk appetite by: -

- Minimum acceptable credit criteria are applied in order to generate a list of highly creditworthy counterparties. This enables diversification and avoidance of concentrated risk. The key ratings used to monitor counterparties are the short term and long-term ratings.
- Other information: ratings will not be the sole determinant of the quality of an institution; it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment also takes account of information that reflects market opinion. The Council will engage with its Treasury advisors Link Group to maintain a monitor on market pricing such as “credit default swaps” and overlay that information on top of the credit ratings.
- Other information used will include the financial press and share prices in order to establish the most robust scrutiny process on the suitability of potential investment counterparties.
- Dacorum Borough Council has defined the list of types of investment instruments that the treasury management team are authorised to use. There are two lists in Appendix 1 under the categories of ‘specified’ and ‘non-specified’ investments.
  - **Specified investments** are those with a high level of credit quality and subject to a maturity limit of one year, or have less than a year left to run to maturity if originally they were originally classified as non-specified investments solely due to the maturity period exceeding one year.
  - **Non-specified investments** are those with a high credit quality, but lower than specified investments, may be for periods in excess of one year, and/or are more complex instruments which require greater consideration by members and officers before being authorised for use.
- Non-specified investments limit. The Council has determined that it will limit the maximum total exposure to non-specified investments as being the lower of 50% of the total investment portfolio or £40m.
- Lending limits, (amounts and maturity), for each counterparty will be set through applying the matrix table described in paragraph 4.2.
- Transaction limits are set for each type of investment in Appendix 1.
- The Council will set a limit for the amount of its investments which are invested for longer than 365 days, (see paragraph 4.5).
- Investments will only be placed with counterparties from countries with a specified minimum sovereign rating, (see paragraph 4.2).

- The Council has engaged external consultants, (see paragraph 1.7), to provide expert advice on how to optimise an appropriate balance of security, liquidity and yield, given the risk appetite of this authority in the context of the expected level of cash balances and need for liquidity throughout the year.
- All investments will be denominated in sterling.
- As a result of changes in accounting standards IFRS 9, this authority will consider the implications of investment instruments which could result in an adverse movement in the value of the amount invested and resultant charges to the General Fund. DLUHC have extended the current statutory temporary override to delay implementation of IFRS 9 to March 2025 to allow local authorities time to adjust their portfolio of all pooled investments. There is no currently no impact for the Council.

The Council will also pursue value for money in treasury management and will regularly monitor the yield from investment income against appropriate benchmarks for investment performance, (see paragraph 4.7).

#### **4.2 Creditworthiness policy**

Dacorum uses the creditworthiness service provided by Link Group. This service employs a modelling approach using credit ratings from the three main credit rating agencies.

The credit ratings of counterparties are supplemented with the following:

- credit watches and credit outlooks from credit rating agencies;
- Credit Default Swaps spreads to give early warning of likely changes in credit ratings;
- sovereign ratings to select counterparties from only the most creditworthy countries.

This modelling approach combines credit ratings, credit Watches and credit Outlooks in a weighted scoring system which is then combined with an overlay of credit default swap spreads resulting in a series of colour coded bands which indicate the relative creditworthiness of counterparties. These colour codes are used by the Council to determine the suggested duration for investments. The Council will therefore use counterparties within the following durational bands:

- Yellow 5 years
- Dark pink 5 years for Ultra-Short Dated Bond Funds with a credit score of 1.25
- Light pink 5 years for Ultra-Short Dated Bond Funds with a credit score of 1.5
- Purple 2 years
- Blue 1 year (Nationalised or semi nationalised UK Banks only)
- Orange 1 year
- Red 6 months
- Green 100 days
- No colour not to be used

The Link creditworthiness service uses a wider array of information other than just primary ratings. Using a risk weighted scoring system, it does not give undue preponderance to one agency's ratings.

Typically the minimum credit ratings criteria the Council use will be a Short Term rating (Fitch or equivalent) of F1 and a Long Term rating of A-. There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances, consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

All credit ratings will be monitored weekly. The Council is alerted to changes to ratings of all three agencies through its use of Link's creditworthiness service. If a downgrade results in the counterparty / investment scheme no longer meeting the Council's minimum criteria, its further use as a new investment will be withdrawn immediately.

In addition to the use of credit ratings the Council will be advised of information in movements in credit default swap spreads against the iTraxx European Senior Financials benchmark and other market data daily via Passport website, provided exclusively by Link Group. Extreme market movements may result in downgrade of an institution or removal from the Council's lending list.

Sole reliance will not be placed on the use of this external service. In addition the Council will use market data and market information, information on any external support for banks to help support its decision making process.

The expected significant levels of downgrades to short and long-term credit ratings have not materialised since March 2020. In the main, where they did change, any alterations were limited to outlooks. This Authority will not set a minimum sovereign debt rating for the UK.

#### **4.3 Country limits**

Due care will be taken to consider the exposure of the Council's total investment portfolio to non-specified investments, countries, groups and sectors. The Section 151 Officer will determine approved counterparties from countries with a minimum sovereign credit rating of AA- from Fitch (or equivalent) as appropriate, with durations following the same colour coded criteria, as set out in 4.2. Officers will remove counterparties from this list should ratings change in accordance with this policy. Counterparties will only be added with approval from the Section 151 Officer and following consultation with the treasury advisers.

#### **4.4 Local Authority Counterparties**

In light of some Local Authorities issuing S114 notices (issued by an authority's s151 office is of the view that expenditure of the authority is likely to exceed the resources available to meet that expenditure), the Council has taken advice in respect of Local Authority counterparties. This states that local authorities continue to represent a low risk investment. The Council will continue to include Local Authority counterparties in its list of potential investment counterparties.

#### **4.5 Investment strategy**

In-house funds: Investments will be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for up to 12 months).

If it is thought that Bank Rates are likely to stagnate and then decline within the time horizon being considered, as such consideration will be given to the length and types of investments that are undertaken, with consideration given to locking in higher rates currently obtainable, for longer periods.

Investment returns expectations: The current forecast shown in paragraph 3.3, includes a forecast for Bank Rate to have peaked at 5.25%. The suggested budgeted investment earnings rates for returns on investments placed for periods up to about three months are as follows:

**Table 12: Projected Investment Returns**

2024/25	4.55%
2025/26	3.10%
2026/27	3.00%
2027/28	3.25%
Later years	3.25%

As there are so many variables, caution must be exercised in respect of all interest rate forecasts.

### Investment treasury indicator and limit

Total principal funds invested for greater than 365 days. These limits are set with regard to the Council's liquidity requirements and to reduce the need for early sale of an investment, and are based on the availability of funds after each year-end.

The Council is asked to approve the treasury indicator and limit:

<b>Upper limit for principal sums invested for longer than 365 days</b>			
<b>£m</b>	<b>2024/25</b>	<b>2025/26</b>	<b>2026/27</b>
Principal sums invested for longer than 365 days	Lower of 50% of portfolio or £40m.	Lower of 50% of portfolio or £40m.	Lower of 50% of portfolio or £40m.

For its cash flow generated balances, the Council will utilise its business reserve instant access and notice accounts, money market funds and short-dated deposits (overnight to 100 days) to benefit from compounding interest.

### 4.6 Treasury Management Counterparty Limits

The Investment limits for counterparties is set as part of the annual Treasury Management Strategy. No changes have been made for 2024/25. The Council is asked to approve the limits below:

**Table 13: Counter Party Limits:**

**Average Forecast DBC Investment balance 2024/25: £76.28m**

<b>Counterparty Limits</b>		
<b>Colour Band (duration</b>	<b>Limit £m</b>	<b>Current limit as a % of total average investment balance*</b>
Green (3 months)	9	11.80%
Red (6 months)	11	14.42%
Orange ( 1 year)	12.5	16.39%
Purple (2 years)	12.5	16.39%
Blue (1 year, incl. NatWest own Bank)	14.5	19.01%

\*the Council is able to invest in 'yellow' banded counterparties (duration up to 5 years), which are not shown in this table. These include investments with the DMO and MMFs.

#### **4.7 Investment performance / risk benchmarking**

These benchmarks are simple guides to minimise risk; so may be breached from time to time, depending on movements in interest rates and counterparty criteria.

The purpose of the benchmark is that officers will monitor the position and amend operational strategy to manage risk as conditions change. Any breach of the benchmarks will be reported to Cabinet, with supporting reasons in the mid-year and annual report.

Security - The Council's maximum security risk benchmark for the current portfolio, when compared to historic default tables is 0.010%.

Liquidity – in respect of this area the Council seeks to maintain:

- Maximum bank overdraft - £0.25m
- Liquid deposits of at least £5m available with a week's notice.
- Weighted average life benchmark is expected to be around 100 days

Yield - local measures of yield benchmarks for investments is to achieve internal returns above the 7 day SONIA (Sterling Overnight Index Average) rate.

At the financial year end, Council will report on its investment activity in its Annual Treasury Report.

#### **4.8 Transactional Limits**

There may be occasions the Council is in receipt of large income transactions from land and property sales etc. In these instances, every effort is made to ensure the council remains within the counterparty limits as set by the Treasury Management Strategy. Due to the nature of these transactions, a provision of 'one working day' is given to allow for surplus funds to be redistributed from the Councils bank to available counterparties as per the creditworthiness policy in 4.2.

#### **4.9 External fund managers**

The Council does not currently use fund managers. If deemed appropriate in the future, the decision go through Cabinet for recommendation to Full Council.

#### **4.10 Non - Treasury Investments**

The Council recognises investment in other financial assets and property primarily for financial return, taken for non-treasury management purposes, requires careful management. Such activity may include loans to support service outcomes, investment in subsidiaries and investment property portfolios and is covered by the Council's normal approvals processes for revenue and capital expenditure. The Council's portfolio of investment properties are managed as part of the Council's asset management strategy.

**4.11** The Council is supportive of the Principles for Responsible Investment (PRI) and will seek to bring ESG (environmental, social and governance) factors into the decision-making process for investments. The PRI is a United Nations supported initiative for incorporating ESG issues into investment practice. This includes a Statement on ESG in Credit Risk and

Ratings, which incorporates ESG into credit ratings and analysis in a systemic and transparent way The Council is appreciative of the Statement on ESG in Credit Risk and Ratings. The Council uses ratings from Fitch, Moody's and Standard & Poor's to support its assessment of suitable counterparties. Each of these rating agencies is a signatory to the ESG in credit risk and ratings statement.

## Appendix 1: Credit and Counterparty Risk Management

A variety of investment instruments will be used, subject to the credit quality of the institution, and depending on the type of investment made it will fall into one of the below categories.

The criteria, time limits and monetary limits applying to institutions or investment vehicles are:

**Specified Investments:** All such investments will be sterling denominated, with maturities up to maximum of 1 year, meeting the minimum 'high' quality criteria where applicable. (Non-specified investments which would be specified investments apart from originally being for longer than 12 months, will be classified as specified once the remaining period to maturity falls to under 12 months.)

	Minimum Credit criteria/ colour band	Use
Debt Management Agency Deposit Facility	Yellow	In-house & Fund
Term deposits – UK Government (including other local authorities)	Yellow	In-house & Fund Managers
Term deposits – banks and building societies	See 4.2	In-house & Fund
Term deposits – housing associations	See 4.2	In-house & Fund
Certificates of deposit issued by banks & building	See 4.2	In-house & Fund
UK Government Gilts	Yellow	In-house & Fund
Money Market Funds (CNAV)	AAA	In-house & Fund
Money Market Funds (LVNAV)	AAA	In-house & Fund
Money Market Funds (VNAV)	AAA	In-house & Fund
Ultra-Short Dated Bond Funds with a credit score	AAA	In-house & Fund
Ultra-Short Dated Bond Funds with a credit score	AAA	In-house & Fund
UK Government Treasury bills	Yellow	In-house & Fund

### Term deposits with nationalised banks and banks and building societies

	Minimum Credit Criteria	Use	Max % of total investments	Max. maturity period
UK part nationalised banks	See Link's Creditworthy list	In-house and Fund Managers	£14.5M per institution	12 months

**Non-specified Investments:** These are any investments which do not meet the specified investment criteria. A maximum of the lower of 50% of the portfolio, or £40m will be held in aggregate in non-specified investment.

	Minimum Credit Criteria	Use	Max. maturity period
Term deposits – UK Government and Other Local Authorities	Yellow	In-house & Fund Managers	5 years
Term deposits – banks and building societies	See 4.2	In-house & Fund Managers	5 years
Certificates of deposit issued by banks and building societies	See 4.2	In-house & Fund Managers	5 years
Gilt Funds	UK sovereign rating	In-house & Fund Managers	5 years
UK Government gilts	Yellow	In-house & Fund Managers	5 years
Bonds issued by multilateral development banks	AAA	In-house & Fund Managers	5 years

**Accounting treatment of investments.** The accounting treatment may differ from the underlying cash transactions arising from investment decisions. To ensure the Council is protected from adverse revenue impacts, we will review accounting implications of new transactions before they are undertaken.

## **Appendix 2- Treasury Management Principle 1: Risk Management (Extract from Treasury Management Principles and Practices**

### **Treasury Management Practice 1: Risk Management**

*The responsible officer will, in accordance with the procedures set out in TMP6 Reporting Requirements and Management Information Arrangements:*

- *Design, implement and monitor all arrangements for the identification, management and control of treasury management risk;*
- *Report at least annually on the adequacy/suitability thereof;*
- *Report, as a matter of urgency, the circumstances of any actual or likely difficulty in achieving the organisation's objectives in this respect;*

*In respect of each of the following risks, the arrangements which seek to ensure compliance with these objectives are set out in this document.*

#### **1. Liquidity Risk Management**

*Dacorum Borough Council (DBC) will ensure it has adequate, though not excessive cash resources, borrowing arrangements, overdraft or standby facilities to enable it at all times to have the level of funds available which are necessary for the achievement of its business/service objectives.*

*DBC will only borrow in advance of need where there is a clear business case for doing so, and will only do so for the current capital programme or to finance future debt maturities.*

Liquidity risk is the risk cash will not be available when required. This can jeopardise the ability of the Council to carry out its functions, or disrupt those functions being carried out in the most cost-effective manner. The Council will ensure its cash flow forecasting gives as accurate a picture as possible of income and expenditure, and the resulting daily cash balances.

#### **Amounts of Approved Minimum Cash Balances and Short-term Investments**

The Treasury Management team shall seek to minimise the balance held in the Council's main bank accounts at the close of each working day, to minimise credit interest foregone and overdraft interest payable. Borrowing and lending shall be arranged, in conjunction with 'auto-sweeping' of balances, to achieve this aim.

#### **Investment of Short-Term Funds**

Each morning the Bank's daily forecast figures are aggregated with any other anticipated cash flows (e.g. cash courier receipts, RTB funds flows income) to produce a consolidated forecast balance for the end of the day. Any short-term credit balance will be either:

- Transferred in to the Council's Call Account with its bankers NatWest plc (RBS); or
- Placed in a Business Reserve Account with selected approved counterparties who offer this facility;
- Placed into a Money Market Fund.

All funds lodged in these ways are instantly available if required.

The Council receives interest if its consolidated balance on any particular night shows a credit balance.

### **Bank Overdraft Arrangements**

A £0.25m net overdraft facility is available with the Council's bankers. Overdraft charges are only applicable if the Council's consolidated balance on any particular night is overdrawn, and charged in line with the Bank Contract.

### **Short-Term Borrowing Facilities**

Short-term borrowing is very rarely required. If undertaken, this is done through brokers on the London Money Market, or Public Works Loan Board. Approved borrowing limits are set out in the Treasury Management Strategy Statement.

### **Insurance/Guarantee Facilities**

There are no specific insurance or guarantee facilities as the above arrangements are regarded as adequate to cover all unforeseen occurrences.

## **2. Interest Rate Risk Management**

*DBC will manage its exposure to fluctuations in interest rates with a view to containing its interest costs, or securing its interest revenues, in accordance with the amounts provided in its budgetary arrangements, as described in TMP6 Reporting Requirements and Management Information Arrangements.*

The Council will achieve this by the prudent use of its approved financing and investment instruments, methods and techniques. This will be done primarily to create stability and certainty of costs and revenues, whilst at the same time retaining a sufficient degree of flexibility to take advantage of unexpected (potentially advantageous) changes in the level or structure of interest rates. The above is subject to the consideration and, if required, approval of any policy or budgetary implications.

Interest rate risk is the risk unexpected changes in interest rates expose the Council to greater costs or a shortfall in income than budgeted. The Council will minimise this risk by seeking expert advice on forecasts of interest rates from treasury management consultants and discussing with them its strategy for the coming year for the investments and debt portfolios. It will also determine appropriate limits and trigger points as set out below.

The limits and strategy are set out in the annual Treasury Management Strategy Statement including details on the approved interest rate exposure limit, trigger points and guidelines for managing changes to interest rate levels and minimum/maximum proportions of variable/fixed rate debt and interest. The strategy is produced before the start of each financial year and periodically reviewed during the year to see if modifications are required in the light of actual movements in interest rates.

### **Forward Dealing**

Consideration will be given to dealing on forward periods dependent upon market conditions. Investments may be agreed weeks or months in advance if market conditions suggest this is appropriate. Any forward deals, whose maturity date is over one year hence at the time the investment is agreed, will only be undertaken with the approval of the Section 151 Officer.

Occasionally investments are agreed a few days in advance for administrative convenience (e.g. due to annual leave).

### **Callable Deposits**

The Council will use callable deposits. The credit criteria and maximum periods are set out in the Schedule of Specified and Non-Specified Investments in the Treasury Management Strategy Statement.

### **3. Exchange Rate Risk Management**

*Dacorum Borough Council will manage its exposure to fluctuations in exchange rates so as to minimise any detrimental impact on its budgeted income/expenditure levels.*

Exchange rate risk is the risk unexpected changes in exchange rates expose the Council to greater costs or a shortfall in income than budgeted. The Council has a minimal exposure to exchange rate risk as it has no powers to enter into loans or investments in foreign currency for treasury management purposes. It will seek to minimise what risk it does have by using the policies below.

#### **Approved Criteria for Managing Changes in Exchange Rate Levels**

As a result of the nature of the Council's business, the Council may have an exposure to exchange rate risk from time to time. This will mainly arise from the receipt of income or the incurring of expenditure in a currency other than sterling.

The Council will adopt a full hedging strategy to control and add certainty to the sterling value of any foreign currency transactions above £10,000 in value (at the prevailing exchange rate). This will mean the Council will eliminate all material foreign exchange exposures as soon as identified.

Where there is a contractual obligation to receive income or make a payment in a currency other than sterling at a date in the future, forward foreign exchange transactions will be considered, with professional advice, to comply with this full cover hedging policy for material foreign currency transactions. Unexpected receipt of foreign currency income will be converted to sterling at the earliest opportunity unless the Council has a contractual obligation to make a payment in the same currency at a date in the future. In this instance, the currency will be held on deposit to meet this expenditure commitment.

### **4. Credit and Counterparty Risk Management**

*Dacorum Borough Council regards the primary objective of its treasury management activities to be the security of the principal sums it invests. The Council will ensure its counterparty lists and limits reflect a prudent attitude towards counterparties with whom funds may be deposited. Furthermore, the Council will limit its investment activities to the instruments, methods and techniques referred to in TMP4 Approved Instruments, Methods and Techniques and listed in the schedule to this document.*

The Council also recognises the need to have, and will therefore maintain, a formal counterparty policy in respect of organisations from which it may borrow or enter into other financing arrangements.

Credit and counterparty risk is the risk of failure by a third party to meet its contractual obligations under an investment, loan or other commitment, especially due to deterioration in its creditworthiness, which causes the Council an unexpected burden on its capital or revenue resources.

As a holder of public funds, the Council recognises its prime responsibility to always put first preserving the principal of sums it invests. Consequently, it will optimise returns commensurate with the management of the associated risk.

### **Criteria to be used for Creating/Managing Approved Counterparty Lists/Limits**

The Council places a strong reliance on its treasury adviser Link Group to help manage credit and counterparty risk. Link has much greater market expertise and direct access to market knowledge than the Council. None the less, the Council recognises all advice provided by Link is precisely that, and full responsibility for all counterparties used, and investments placed, rests entirely with the Council.

The three elements to managing credit and counterparty risk are:

- 1) Determining '*Specified and 'Non-Specified' Investments*' criteria;
- 2) Determining '*Approved Lending Policy*', which sets out minimum credit criteria, duration and monetary amount limits;
- 3) Managing the '*Approved Lending List*' (or list of counterparties).

### **Specified and Non-Specified Investments**

The Council will determine through its Treasury Management Strategy the credit criteria for various investment instruments in the 'Specified' and 'Non-Specified' Investments categories. Specified Investments are sterling investments of not more than one year maturity (or the ability to be repaid within one year), meeting the minimum 'high' rating criteria and require '*minimal procedural formalities*'. Non-specified investments are any other type of investment. Maximum amounts and maturity periods along with overall limits are set out in the Treasury Management Strategy Statement.

### **Lending Policy**

The Lending Policy is based on Link guidance. This uses different ratings combinations and allocates those meeting the minimum criteria a colour as set out in the Treasury Management Strategy Statement. The Council has allocated each of these colour bands a maximum duration and amount. Any changes to the Treasury Management Statement require Full Council approval.

### **Money Market Funds**

Money Market Funds will be used in line with the Councils' Treasury Management Strategy. Funds used will be reviewed on at least an annual basis in March, unless market conditions, trends and external advice suggests reviews should be undertaken sooner.

### **Approved Lending List**

The list of approved counterparties is derived from applying the limits in the Treasury Management Strategy to the weekly ratings list of deposit takers provided by Link. The list includes domestic and foreign banks, building societies, supranational institutions and multi-lateral development banks. It is supplemented by a ratings alert service for changes to the ratings of individual counterparties.

If the Council uses external fund managers, they will adhere to the Council's counterparty credit criteria and maximum individual limits; however fund managers may use a subset of the derived counterparty list.

The Regulatory and Financial Accounting Team is responsible for maintaining the Approved Lending List on the Council's Investment System and for ensuring any changes are communicated to the fund manager, where appropriate.

A full copy of the Council's approved counterparties, along with their individual amount and duration limits, will be included in the Treasury Management Annual Report.

## **5. Refinancing Risk Management**

*The Council will ensure its borrowing, private financing and partnership arrangements are negotiated, structured and documented, and the maturity profile of the monies so raised are managed, with a view to obtaining offer terms for renewal or refinancing, if required, which are competitive and as favourable to the Council as can reasonably be achieved in the light of market conditions prevailing at the time.*

*The Council will actively manage its relationships with its counterparties in these transactions in such a manner as to secure this objective, and will avoid over-reliance on any one source of funding if this might jeopardise achievement of the above.*

Refinancing risk is the risk when loans or other forms of capital financing mature, they cannot be refinanced where necessary on terms reflecting assumptions made in formulating the budget.

### **Debt / Other Capital Financing Maturity Profiling, Policies and Practices**

Due to Housing Self Finance in March 2012, the Council acquired over a thirty year period fixed term loans from the Public Works Loan Board (PWLb). This transaction was subject to detailed reports and approvals, and a specific audit.

The Council borrowed in May 2015 to support General Fund Capital Expenditure. Borrowing activities and strategies and limits are identified within the Treasury Management Strategy Statement.

The Council will establish through its Prudential and Treasury Indicators the amount of debt maturing in any year/period.

Any debt rescheduling will be considered when the difference between the refinancing rate and the redemption rate is most advantageous and the situation will be continually monitored in order to take advantage of any perceived anomalies in the yield curve. The reasons for rescheduling will include:

- the generation of cash savings at minimum risk;
- to reduce the average interest rate;
- to amend the maturity profile and /or the balance of volatility of the debt portfolio.

Rescheduling will be reported to Cabinet at the meeting immediately following its action.

### **Projected Capital Investment Requirements**

Regular updates are made to the Authority's revenue and capital budget projections. These projections identify the key capital items (both expenditure and income) forecast for forthcoming years, and this analysis is used to ensure the Council will have sufficient funds available in forthcoming years. The responsible officer will also draw up a capital strategy report giving a longer term view.

Capital expenditure and long-term liabilities definition will follow recommended accounting practice.

### **Policy Concerning Limits on Revenue Consequences of Capital Financing**

The Council will consider all the resources currently available/estimated for the future together with the totality of its capital plans, revenue income and revenue forecasts for the forthcoming year and the two following years and the impact these will have on council tax and housing rent levels. It will take into account affordability in the longer term beyond this three year period. The Council will use the definitions in the Prudential Code for borrowing, capital expenditure, financing costs, investments, net borrowing, net revenue stream, and other long-term liabilities.

Whenever major capital projects are planned, a full examination is taken of the potential revenue impact. Issues considered include revenue costs/benefits resulting directly from the project, and the impact on revenue of interest receipts foregone as a consequence of capital investment proposed.

### **Capital Receipts Generated by the HRA to fund Capital expenditure**

For each Right to Buy council house disposal, the Council retains the '1-4-1' receipt, which can be used to fund 40% of new build expenditure within 5 years. Any unused '1-4-1' receipts are to be returned to Government with interest.

The Council can also use 100% of its non- Right to Buy Housing receipts and a small proportion of right to buy council house sales relating to adjusted allowable debt and the local authority's share capital. Receipts under £10,000 are not subject to pooling.

## **6. Legal and Regulatory Risk Management**

*Dacorum Borough Council will ensure that all of its treasury management activities comply with its statutory powers and regulatory requirements. It will demonstrate such compliance, if required to do so, to all parties with whom it deals in such activities. In framing its credit and counterparty policy under TMP1[4] Credit and Counterparty Risk Management, it will ensure that there is evidence of counterparties' powers, authority and compliance in respect of the transactions they may effect with the Council, particularly with regard to duty of care and fees charged.*

*The Council also recognises that future legislative or regulatory changes may impact on its treasury management activities and, so far as it is reasonably able to do so, will seek to minimise the risk of these impacting adversely on the organisation.*

Legal and regulatory risk is the risk either the Council or a third party it is dealing with in its treasury management activities, acts outside of its legal powers or regulatory requirements and as a result the Council incurs loss.

### **References to Relevant Statutes and Regulations**

The treasury management activities of the Council shall comply fully with legal statute, guidance, Codes of Practice and the regulations of the Council. These are:

## **Legislation**

### **Statutes**

- Local Government Finance Act 1988 section 114 – duty on the responsible officer to issue a report if the Council is likely to get into a financially unviable position.
- Requirement to set a balanced budget - Local Government Finance Act 1992 section 32 for billing authorities.
- Local Government Act 2003 and (Commencement No.1 and Transitional Provisions and Savings) Order 2003
- Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 and Amendments.
- Local Authorities (Capital Finance) (Consequential, Transitional and Savings Provisions) Order 2004
- Local Government and Public Involvement in Health Act 2007 s238 (2) – power to issue guidance; to be used re: MRP
- The Local Government Pension Fund Scheme (Management and Investment of Funds) Regulations 2009
- Localism Act 2011
- Accounts and Audit Regulations 2015
- Statutory Guidance on Investments 2018
- Statutory Guidance on MRP 2018
- Exiting the European Union financial services: The Money Market Funds (Amendment) (EU Exit) Regulations 2019

- The Council's Financial Regulations;
- The Council's Scheme of Delegation;
- The Council's Treasury Management Strategy;
- The Council's Treasury Management Practices – Principles & Practices;

### **Procedures for Evidencing the Council's Powers / Authorities to Counterparties**

The Council's powers to borrow and invest are contained in legislation as follows:

Investing: Local Government Act 2003, section 12;

Borrowing: Local Government Act 2003, section 1;

### **Required Information from Counterparties Concerning their Powers / Authorities**

Lending shall only be made to counterparties on the Council's Approved Lending List. This list has been compiled using advice from the Council's treasury advisers based upon credit ratings supplied by various credit agencies and the Council's own data.

### **Statement on the Council's Political Risks and Management of these Risks**

The Chief Financial Officer shall take appropriate action with the Council, the Chief Executive and the Leader of the Council to respond to, and manage appropriately, political risks such as a change of the majority Group, in the Leader of the Council or a change of Government.

### **Monitoring Officer**

The Monitoring officer is the Assistant Director Legal and Democratic Services. The duty of this officer is to ensure treasury management activities of the Council are lawful.

### **Chief Financial Officer/ S151 Officer**

The Chief Financial Officer is the S151 Officer. The duty of this officer is to ensure financial affairs of the Council are conducted in a prudent manner and report to the Council if he/she has concerns as to the financial prudence of its actions or its expected financial position.

The Deputy S151 Officer is the Head of Financial Services, who can deputise fully for the S151 Officer.

## **7. Fraud, Error and Corruption, and Contingency Management**

*Dacorum Borough Council will ensure that it has identified any circumstances that may expose it to the risk of loss through fraud, error, corruption or other eventualities in its treasury management dealings. Accordingly, it will employ suitable systems and procedures, and will maintain effective contingency management arrangements, to these ends.*

Fraud, error and corruption risk is the risk the Council may fail to employ adequate systems, procedures and other arrangements which identify and prevent losses through such occurrences. The Council will:

- a) Seek to ensure an adequate division of responsibilities and maintenance at all times of an adequate level of internal check which minimises such risks;
- b) Fully document all its treasury management activities so there can be no possible confusion as to what proper procedures are;
- c) Ensure staff will not be allowed to engage in treasury management activities until they have had proper training in procedures; and then subject to an adequate and appropriate level of supervision
- d) Ensure records are maintained of all treasury management transactions, so there is a full audit trail and evidence of the appropriate checks being carried out.

### **Details of Systems and Procedures to be followed, Including Internet Services**

#### **Authority**

The Council's Financial Regulations sets out the Council's delegation arrangements with regard to Treasury Management. These are summarised in *TMP5*.

#### **Investment and Borrowing Transactions**

Adequate and effective cash flow forecasting records are maintained on the Council's Investments system to support any decisions made to place investments.

A detailed register of all investments is maintained within the Council's Investments system. This includes full details of counterparty limits, along with other information including investment amounts, value and maturity dates, interest rates, and gross interest receivable.

All transactions placed through brokers, Link's Agency Treasury Services (ATS) or via direct dealing are confirmed, showing details of the transaction. Written confirmation is received from both broker and borrower and checked against the dealer's records. Any discrepancies are immediately reported to the Finance Manager Financial and Regulatory Accounting for resolution. The Council does not send any confirmations of its own.

#### **Regularity and Security**

All lending, for investment purposes, is only made to counterparties on the Council's Approved Lending List. This list provides individual authorisation limits for each counter party.

Most Investments are paid direct into the appropriate counterparty's bank account (as advised by the broker or counterparty), and investments are repaid direct from the counterparty into the Council's General Account. The exception is investments using Link Agency Treasury

Services. These are paid to the Link ATS trustee account and then repaid to the Council's General Account.

Counterparty limits are set for every institution that the Council invests with.

Brokers have been provided with a list of named Council officials who are authorised to place investments on the Council's behalf.

The Council's Bank holds a list of Council officers who are authorised signatories. Updates of this list are notified to the bank when current authorised signatories leave, or new signatories join. Notifications of amendments are only accepted by the bank if they are signed by an existing (non-departing) authorised signatory.

All investments are paid by CHAPS instruction through the online banking system. This is undertaken by two of the authorised bank account signatories and the officer agreeing an investment cannot be one of the signatories for that particular investment.

### **Checks**

The Investment System balances are reconciled to the balance sheet ledger codes at the end of each month and at the financial year-end. The System includes comprehensive reconciliation checks back to the Council's banking system to ensure all investments are correctly recorded and processed.

### **Emergency and Contingency Planning Arrangements**

All computer files are backed up on the server to enable files to be accessed from remote sites.

The Council's Investment and banking systems are both internet based so can be accessed from any site or computer, subject to the user having the appropriate access and security information.

### **Insurance Cover Details**

The Council has Crime insurance cover. This policy covers loss resulting directly from any crime committed by any employee or any third party. The total limit of indemnity provided is £1,000,000, a policy excess of £100,000 for each and every claim applies.

The Council also has Officials Indemnity cover. This provides cover in respect of the Council's legal liability to pay claimant's damages and costs for financial losses arising as a result of the negligent acts or accidental errors and omissions of Council employees, occurring in the course of their duties. The limit of indemnity is £5,000,000, a policy excess of £75,000 for each and every claim applies.

The Council has Business Interruption cover as part of its property insurance. This covers additional costs of working and loss of revenue if an insured event occurs.

### **8. Market Risk Management**

*Dacorum Borough Council will seek to ensure that its stated treasury management policies and objectives will not be compromised by adverse market fluctuations in the value of the*

*principal sums it invests, and will accordingly seek to protect itself from the effects of such fluctuations.*

Market risk is the risk through adverse market fluctuations in the value of principal sums, the Council borrows and invests, its stated policies and objectives are compromised, against which it had failed to protect itself adequately. The Council does not currently have exposure to investments whose capital may fluctuate (gilts, Corporate Deposits), and will only undertake such activities on discussion with the S151 Officer and Portfolio Holder (Corporate and Commercial Services), and if the current Investment Strategy allows such investments.

## **9. Environmental, Social and Governance Factors**

The Council is supportive of the Principles for Responsible Investment and will seek to bring ESG (environmental, social and governance) factors into the decision-making process for investments. The Council is appreciative of the Statement on ESG in Credit Risk and Ratings which incorporates ESG into credit ratings and analysis in a systemic and transparent way. The Council uses ratings from Fitch, Moody's and Standard & Poor's to support its assessment of suitable counterparties. Each of these rating agencies is a signatory to the ESG in credit risk and ratings statement.

## **Appendix 4: Treasury management roles and scheme of delegation**

### **Full Council**

- receiving and reviewing reports on treasury management activities;
- approval of annual strategy;
- approval of/amendments to the organisation's adopted clauses and treasury management policy statement;
- budget consideration and approval;
- approval of the division of responsibilities;
- receiving and reviewing regular monitoring reports and acting on recommendations;

### **Cabinet**

- reviewing the treasury management strategy and reports and making recommendations to the responsible body.

### **The S151 (responsible) officer**

- recommending clauses, treasury management policy/practices, reviewing regularly, and monitoring compliance;
- submitting regular treasury management policy reports;
- submitting budgets and budget variations;
- receiving and reviewing management information reports;
- reviewing the performance of the treasury management function;
- ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function;
- ensuring the adequacy of internal audit, and liaising with external audit;
- recommending the appointment of external service providers;
- approving the selection of external service providers and agreeing terms of appointment;
- approving the use of non-UK counterparties as appropriate;
- preparation of a capital strategy to include capital expenditure, capital financing, non-financial investments and treasury management, with a long term time frame;
- ensuring the capital strategy is prudent, sustainable, affordable in the long term and provides value for money;
- ensuring due diligence has been carried out on all investments and is in accordance with the risk appetite of the authority.
- ensure that the authority has appropriate legal powers to undertake expenditure on non-financial assets and their financing
- ensuring the proportionality of all investments so that the authority does not undertake a level of investing which exposes the authority to an excessive level of risk compared to its financial resources
- ensuring that an adequate governance process is in place for the approval, monitoring and ongoing risk management of all non-financial investments and long term liabilities
- provision to members of a schedule of all non-treasury investments including material investments in subsidiaries, joint ventures, loans and financial guarantees

- ensuring that members are adequately informed and understand the risk exposures taken on by an authority
- ensuring that the authority has adequate expertise, either in house or externally provided, to carry out the above
- creation of Treasury Management Practices which specifically deal with how non treasury investments will be carried out and managed, to include the following: -
  - Risk management (TMP1 and schedules), including investment and risk management criteria for any material non-treasury investment portfolios;
  - Performance measurement and management (TMP2 and schedules), including methodology and criteria for assessing the performance and success of non-treasury investments;
  - Decision making, governance and organisation (TMP5 and schedules), including a statement of the governance requirements for decision making in relation to non-treasury investments; and arrangements to ensure that appropriate professional due diligence is carried out to support decision making;
  - Reporting and management information (TMP6 and schedules), including where and how often monitoring reports are taken;
  - Training and qualifications (TMP10 and schedules), including how the relevant knowledge and skills in relation to non-treasury investments will be arranged.
