Aidan Wilkie	2	2	4.00	- We now have an agreed programme of work, governance and impact/ monitoring approach; - Key delivery risks are identified and work prioritised; - Fleet and housing decarbonisation remain big challenges but big steps forward have been made on both. The latter is a nationwide challenge. - £1.16m has been approved to set aside in reserves to to help progress our programme/ augment it with additional activity;
Weakening of the Council's Financial Resilience.	Catherine SilvaDonayre / Nigel Howcutt	2	2	4.00	Financial resilience Inherent risk likelihood 4; inherent risk consequence/ impact 4. Overall inherent risk score is 16. Target risk likelihood 2; target risk consequence/ impact 3. Overall target risk score is 6. Actual Risk Score; Impact 2 likelihood 2. Overall Qtr 3 risk score is 4. During 2023/24 the in-year financial projections for the general fund have projected an overall surplus in comparison to approved budgets. The General fund short term financial position looks strong given the increased performance of cash investments. This has come about due to slippage in the capital spend programme increasing cash balances, and higher and more sustained levels of interest rates than previously forecasted. In addition to this the 2024 Medium Term financial Strategy (MTFS) and 2024/25 budget has been approved by cabinet and is projecting a balanced budget position for 24/25. A total unidentified savings requirement of £2.1m is remaining to be achieved over the MTFS period. The level of reserves at the end of 23/24 are expected to exceed reserve levels achieved in recent years and feel appropriate to support any short and medium term difficulties that could arise. The HRA financial projections worsened in quarter 4 of 22/23 and the financial pressures within the service have maintained in throughout 2023/24 with a current projected pressure of circa £600k in 23/24. The HRA is impacted significantly by inflationary cost pressures and demand relating to repairs and maintenance. The HRA is being closely monitored and mitigation measures are being implemented and assessed as the impact of wider inflationary cost pressures has a greater impact on the housing service than the general fund. In terms of medium term financial sustainability the HRA 30 year business plan has been approved by cabinet and details how the HRA plans to ensure it is both affordable and sustainable in the medium term. Mitigations/Actions importance. 1. Delivering to budget in year. 2. Approval of a sustainable and achievable MTFS 3. Approval of a balanced budget for the next financial year.

Failure to work with Strategic Partners to deliver Corporate priorities	Claire Hamilton	2	2	4.00	Key joint working groups established and operating (e.g. Hemel Place Board, SW Herts Joint Strategic Partnership, Hemel Garden Communities Board). Key Delivery Partnerships have the appropriate strategic and operational governance boards in place to monitor delivery. Hertfordshire wide delivery groups supported and monitored. Strategic partners are assigned lead officers for relationship management and communications. Senior officers liaise with Government departments and agencies in relation to the Council's strategic plans and activity. Meetings with DLUHC and Home Office officials have been held and preparations are underway for future visits from Government departments in 2024. Hemel Health Campus project has been launched and a project team with health partners has been established. Strategic Partners are engaged in the production of new strategies and plans for Dacorum, such as the new Housing Strategy. CVS Grant funding proposals have been approved by Cabinet. Detail	Status	
Evidence Risk is being managed	<p>The Council's Medium Term Financial Strategy (MTFS) and the HRA Business Plan are controls that mitigate the likelihood of this risk crystallizing through the effective modelling of the future financial environment.</p> <p>Sound financial planning maximizes the opportunity for the Council to identify funding risks in advance, and therefore grants more time for it to plan to provide its services differently in order to continue delivering its corporate priorities.</p> <p>The Council's sound financial planning processes, have resulted in a residual likelihood score is 3, It is likely that the Council's financial resilience will weaken from a position of strength; given current macroeconomic factors that contribute to financial pressures, despite the sound financial control framework in place.</p> <p>The residual impact score is 2, given the financial planning and reserves policy in place to reduce/finance the impact of any financial downturn. If the economic outlook was to be ongoing for significant period of time the impact score would increase as resources are diminished.</p> <p>The MTFS details the financial implications of the Corporate Plan over a five-year period. It ensures that the Council is able to forecast likely income pressures in the medium-term, and optimise the balance between its financial resources and the delivery of its priorities. The MTFS is reviewed annually and is approved by Full Council, thereby providing the opportunity for Members to make informed amendments to the Corporate Plan on the basis of likely funding constraints.</p> <p>The 2022 MTFS outlines the continuation of the ongoing two-pronged approach to combine the Council's need to;</p> <ol style="list-style-type: none"> 1 Continue driving the efficiencies required to ensure underlying sustainability; and, 2 To protect frontline service provision. <p>The updated 2022 MTFS can be viewed on the October 2022 Cabinet Agenda, at www.dacorum.gov.uk.</p> <p>Internal Audit In recent years, the Council has received independent, third-party audit reviews of the financial processes that contribute to the management of this risk: The 'Budgetary Control' process is audited by the Council's Internal Auditors annually and in 2022, and 2023 has received the substantial assurance.</p> <p>The 'Core Financial Systems and Budgetary Control' which have in recent years also achieved substantial assurance with limited recommendations for improvement.</p> <p>External Audit The 2022 "Annual Auditors Report and 'Value for Money' opinion issued by Grant Thornton in June 2023 outlined no risks of significant weakness identified in relation to Financial Sustainability, Governance and Improving economy, efficiency and effectiveness. This report was based on evaluation of the MTFS; the budget setting process; the reserves policy and use; and, the Council's financial performance reporting</p> <p>The Council has a sustainable 2022 MTFS and a balanced budget set for 2023/24 following a financial performance in 2022/23 that followed expectations, and included a significant net contribution to reserves, and hence, it has meant that the Council is able to protect the delivery of its frontline services into the medium-term.</p>	

		31 Dec 2023
Detail		Status
	Consequences / Impacts	<p>The Council is currently facing two fronts of significant financial uncertainty that both hamper planning and risk deliverability of the objectives within the Corporate Plan into the medium-term:</p> <ol style="list-style-type: none"> 1. The ongoing uncertainty around future Government funding of local authorities. 2. The financial implications of the wider economic downturn and uncertainty. <p>Government Funding The Council is currently operating on a one-year Finance Settlement from Government, the fourth in succession, following the conclusion of the 4- year settlement ending in April 2019. One-year settlements, and the planning challenges that accompany them, are expected to continue until after the next general election, expected in October 2024. At this point it is expected that a new Local Government funding allocation model will be implemented following historical work Funding Review work undertaken.</p> <p>As yet there is no certainty over the level of funding that Dacorum or any other authority can expect in the future.</p> <p>However, there is a strong belief across the sector that the new model will divert funding away from lower tier authorities in favour of those authorities with responsibility for the provision of Public Health, Social Care and Education. The Council must ensure that it's in a position to adapt to significant funding reductions at potentially short notice when the new model is announced.</p> <p>Economic Downturn and Inflationary Pressures. The Council faces significant expenditure pressures as a result of unusually high inflation impacting on contract values, pay awards and utilities.</p> <p>The current cost of living crisis created by record inflation levels is putting an additional strain on household incomes, this is likely to impact on council income generation.</p> <p>Income pressures could be brought about by a significant long-term recessionary impact on the Council's primary income generating services, e.g. commercial property, parking and garages.</p> <p>The magnitude of the potential ongoing economic uncertainty and severity of the economic recovery period creates a significant financial threat to the Council's in-year and medium term budget.</p>
