## FR\_F02 Delays to Capital programme

<b>Category:</b> Financial	<b>Corporate Priority:</b> Dacorum Delivers		<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	2 Medium	6 Amber	5	2 Medium	10 Red
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
Many of the major projects within the Capital Programme are fundamental to delivery of the Council's corporate objectives. Therefore significant delays can impact on the achievement of the corporate plan.		The controls that have been implemented to mitigate this risk target the robustness of capital bids both at the time they are submitted and throughout the delivery phase of the projects.		The 2013/14 Final Outturn showed that the slippage of capital projects was around 30% against the Original Budget approved by Members in February 2013. This is an improvement on previous years where slippage against Original Budget has been around 60%.	
Financial decision-making is negatively affected if the timing of projects in the Capital Programme is wrong. This can result in lost investment income or increased interest costs as the Council moves closer to the point where it will need to borrow.		In particular, scrutiny is focussed on those elements of the capital bid that experience indicates are the primary cause of delays to capital projects. These include  ¿?¿ How robust are the assumptions on the estimated duration of the procurement exercise?		As at the end of Quarter 2 2014/15 (the mid-point of the year), the capital forecast on the General Fund is broadly on budget, with no material slippage reported at this stage. Slippage on the HRA capital programme is forecast to be well below 5%.	
The estimated delivery date is considered as part of the decision to allocate capital funds to one project over another. If estimated timings are not accurate, there is a risk that the allocation of funds is not being decided on appropriately.		¿?¿ How realistic is the estimated time taken for contractors to deliver the works?  ¿?¿ How realistic are the assumptions on officer availability to manage the project on time?		The budget position as at Quarter 3 was reported to Cabinet in February 2015. The report showed that forecast net slippage on the General Fund Capital Programme was low at around 3%. Forecast slippage on the HRA Capital Programme has, however, increased significantly since the Quarter 2 forecast, at around 25%.	
If inaccurate project management is tolerated, there is a risk that the culture of financial management across the Council will be negatively affected which will have consequences for wider financial decision-making.		The rationale behind this approach is that an increased culture of challenge will lead to more realistic programming of future capital projects, and therefore a		The Provisional Outturn was reported to Cabinet in may

	closer scrutiny from Members.	
<b>Sign Off and Comments</b>		
<p><b>Sign Off Complete</b></p> <p>Additional actions to address delays within the capital programme have been included within the 2016/17 budget setting process. The additional measures included scrutiny of delivery schedules, quality assurance of estimates and project challenge were part of the process of officer assurance, the work of the Budget Review Group and the work by members through the Joint Scrutiny process.</p> <p>An additional action plan has been drafted for consideration to examine escalation and trigger points. A review by the finance team has set out a rephrasing of the capital budgets that will re-profile £5.8m into 2017/18 and will therefore bring the capital programme back on track.</p>		

## FR\_F03 Variances in General Fund revenue budget

<b>Category:</b> Financial	<b>Corporate Priority:</b> Dacorum Delivers		<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	2 Medium	6 Amber	2 Unlikely	2 Medium	4 Green
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
Accurate, well-controlled budgeting relates directly to the achievement of the Dacorum Delivers corporate objective, and indirectly, through the financial decision-making process, to the achievement of all of the Council’s corporate objectives.		The following controls aim to reduce the probability of there being a variance in the General Fund Revenue Budget by ensuring that there is strong challenge put to Budget Holders on the robustness of their assumptions, from a range of audiences.		The Council’s budgetary controls are assessed each year by Internal Audit. In January 2013, the Council received a ‘Full’ level of assurance.	
Inaccurate budgeting negatively affects the Council’s ability to make evidence-based decisions. A significant underspend at year-end could indicate that funds have been needlessly diverted from a competing priority. A significant overspend at year-end could result in		It is intended that these controls will increase the opportunity for flawed assumptions to be exposed as soon as possible, as well as inculcating a stronger culture of financial management across the Council leading to continuous improvement in the setting of accurate		A further Internal Audit on the Council's budgeting process, undertaken in September 2014, resulted in a 'Substantial' level of assurance. Despite this being a lower mark than the exceptional one achieved in the previous audit, it should be noted that it remains a good result.	

# OPERATIONAL RISK REGISTER

June 2016

reserves being used to support lower priority objectives. Both of these could result in reputational damage for the Council.

Failure to address the causes of inaccurate budgeting could negatively impact the Council's culture of financial management, which in turn increases the risk of poor financial decision-making.

budgets.

The annual budget-setting process consists of an ongoing scrutiny process in which senior officers from across the Council, together with the Financial Services team, challenge the following year's budget bids from Group Managers.

This scrutiny process is augmented by the Budget Review Group (BRG), consisting of Chief Officer Group and representatives from the Portfolio Holder group, which provides early Member-level challenge.

There are two opportunities for OSCs to scrutinise the budget proposals and directly question the relevant officers before the budget report is finalised and considered by Cabinet and Council.

Once approved, in-year budget performance is managed through monthly meetings between accountants and budget holders, which underpin monthly reports to CMT and quarterly reports to Cabinet and OSCs.

The Council's Financial Regulations provide a guide to all budget-holders and are subject to annual review.

The recommendations of the Internal Auditor that led to the reduced marking were not systemic in nature, and they do not pose a material threat to the overall control environment of the budget-setting process. Efforts have, however, been redoubled, and the causes of the recommendations have been addressed.

An Internal Audit report on the Council's 'Main Accounting' function was presented to Audit Committee in February 2015, in which a 'Full' level of assurance was awarded. This audit covered a range of areas including integrity of transactions, manual adjustments, and year-end procedures. All of these areas contribute to the accuracy of the in-year monitoring reports that the Finance team is able to produce. Consequently, Members can draw assurance from this audit opinion that the chances of this risk crystallising are reduced by the robust financial management procedures the Council has in place.

Final confirmed outturn for 2014/15 was within £48k of budget (after contributions to and from reserves) as reported to Audit committee and approved as part of the audited accounts and was consistent with the budget monitoring over the preceding year.

An Internal Audit report on the Council's 'Budgetary Control' function was presented to Audit Committee in April 2016, in which a 'Full' level of assurance was awarded. This audit covered a range of areas including

# OPERATIONAL RISK REGISTER

June 2016

		<p>budget setting; budget upload; budget monitoring and savings realization; budget alterations and virements; and management information. All of these areas contribute to the accuracy of the in-year monitoring reports that the Finance team is able to produce. Consequently, Members can draw assurance from this audit opinion that the chances of this risk crystallising are reduced by the robust financial management procedures the Council has in place.</p> <p>The 2015/16 audit of Core Financial Systems was also reported to have either Full or Substantial levels of assurance.</p> <p>Final confirmed outturn for 2015/16 was within 2% of budget (after contributions to and from reserves) as reported to Audit committee and approved as part of the audited accounts and was consistent with the budget monitoring over the preceding year.</p>

## FR\_R01 Council Tax and Business Rates collections rates drop below budget

<b>Category:</b> Reputational	<b>Corporate Priority:</b> Dacorum Delivers		<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
3 Likely	2 Medium	6 Amber	3 Likely	2 Medium	6 Amber
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
Distribution of collection fund to other preceptors is based on the budgeted collection level, if collection falls short this could lead to a cashflow issue within the Council’s finances. The fund distribution is balanced after the end of the financial year.		The following controls aim to identify as quickly as possible if the Council is falling behind on its collection rates target for the year. If a problem is identified, the Council is then able to invoke a range of options to minimise the ongoing negative impact on collection.		The full year Council Tax Collection Rate for 2013/14 (Performance Indicator RBF05) was 97.7% against a budget of 97.5%.	
Reputational risk if collection rate falls significantly – this could also impact on future years’ council tax base leading to increased budget pressures.		Profiled monthly collection rates are monitored monthly - see KPIs RBF04 and RBF05. Reasons for variances are then investigated in order to address problems quickly as possible.		The full year Business Rates collection rate in 2014/15(Performance Indicator RBF04) was under budget at 98.1% against a target of 99%.	
Financial risk in relation to business rate retention scheme if rates collection falls below government set baseline.		Direct debit payment is recommended for all customers – a pre-filled instruction is sent to all non-DD payers with their annual bill or a first bill for a new taxpayer. The direct debit method reduce the risk of under-collection because it eliminates the risk of a payer forgetting to make a monthly payment.		Q1 Council Tax collection rates is 30.2% versus a target of 30.1% Q1 Business Rates collection is 30.2% versus a target of 24.8%	
		There is an active programme for taking formal recovery action against non payers.		Q2 Business rates collection is 52.6% achieved versus a target of 51.5%. Council tax collection is on target at 58%.	
				Q3 Business rates collection is 77.2% and is running at 0.5% ahead of target. Council tax collection is at 86.2% which is 0.2% off target but is a 0.1% improvement from the same period	

# OPERATIONAL RISK REGISTER

June 2016

		<p>last year.</p> <p>Internal Audit have performed a routine assessment of the control environment within Council Tax collection and have given an assurance of Full/Substantial . This is a good result and has highlighted a number of minor improvements that can be made to the timeliness of some work. This does however provide assurance to members that the fundamental design and operation of the control processes are robust.</p> <p>Members can gain additional assurance from the routine Internal Audit assessment of Business Rates as being at Full/Substantial levels.</p> <p>Council tax collection for 2015/16 was 98% which is 0.3% improvement on 2014/15. Business rate collection was 98.3% narrowly missing the target of 99% but improving on the 2014/15 performance by 0.2%.</p> <p>Q1 Business Rates collection is 27.7% which is exactly on target and Council tax Collection is 30.4% which is 0.2% up on target.</p>

The team continue to improve processes and achieve target collection rates. Further work is on-going to maintain and improve the levels.

**FR\_R02 Delays and errors in the processing of Benefits claims**

# OPERATIONAL RISK REGISTER

June 2016

<b>Category:</b> Reputational	<b>Corporate Priority:</b> Dacorum Delivers	<b>Risk Owner:</b> David Skinner	<b>Portfolio Holder:</b> Cllr Graeme Elliot	<b>Tolerance:</b> Treating	
<b>Inherent Probability</b>	<b>Inherent Impact</b>	<b>Inherent Risk Score</b>	<b>Residual Probability</b>	<b>Residual Impact</b>	<b>Residual Risk Score</b>
4 Very Likely	3 High	12 Red	3 Likely	2 Medium	6 Amber
<b>Consequences</b>		<b>Current Controls</b>		<b>Assurance</b>	
This risk links to the corporate objective Dacorum Delivers, focussing on an efficient and effective council.  Customers could suffer personal hardship resulting from delays or errors in the processing of claims.  Significant reputational risk associated with high-profile errors.  Staff time spent on addressing unnecessary errors leads to duplication of effort and is an inefficient use of resources.  Government subsidy for housing benefit expenditure is based on external audit certification of the claim made. There is financial risk if errors on cases are identified during their testing.  Communications with claimants needs to be well written and jargon-free in order to reduce the risk of repeat queries which puts pressure on limited staff resources.		The controls in place aim to mitigate this risk by closely monitoring performance to assist with effective decision-making around resource allocation. This is a heavily process driven service area and close monitoring also helps to identify bottle necks in the process which need to be improved to optimise performance. By subjecting the process to this regular in-depth scrutiny the Service is able to reduce the probability of the risk crystallising, hence the reduction between the Inherent Risk score (4) and the Residual Risk score (2) after the controls have been taken into account.  Quality checking and individual performance management is in place. These mean that each officer has targets for their personal productivity and accuracy, and information from quality checks is fed back in order to sustain improvement.  Average time taken for processing new claims and changes in circumstances forms part of monthly monitoring.		The successful and continuously improving management of this risk can be seen in the improved performance of KPI RBF01a - Average Time Taken to Decide a New Benefit Claim.  Performance for the full year 14/15 was 22.9 days, which was within the target of 23 days for the first time.  This represents an improvement of 4.5 days over the 27.4 days average in 2014/15, and an improvement of 9.9 days against the 12/13 result of 32.8 days.  It should be noted that these improvements have been achieved without additional resource. It has purely been the result of improved process design and increased efficiency.  Average time taken to decide a new claim for Housing benefit is 22.7 days versus a target of 23. This is the first quarter since the same period last year where the target has been met. Average time taken to decide a change event in Housing	

# OPERATIONAL RISK REGISTER

June 2016

	<p>Processes are in place to expedite cases where the customer is vulnerable or facing eviction. These processes start when a case is identified within benefits, or by customer services, homelessness, housing etc.</p> <p>Monthly meetings are held between senior officers within Finance &amp; Resources to monitor detailed performance levels at each stage of the claims process.</p> <p>This enables intermediary targets to be set for discrete elements of the process, which in turn enables the more effective monitoring which has resulted in significantly improved performance over the last 6 months.</p>	<p>Benefit is at 12.3 days versus a target of 13.0.</p> <p>Q2 performance has been very good in relation to new claims. The team have achieved 19.6 days versus a target of 23 days.</p> <p>Q3 performance has been very good. New claims are now being processed within 17.4 days versus a target of 23 days. This is an improvement of 9.2 days on the same period last year and 2.2 days improvement on the previous quarter.</p> <p>The average time taken to decide on a change event in Housing benefit is 10.8 days versus a target of 13 days. This is an improvement of 5.6 days on the same period last year and an improvement of 1.5 days on the previous quarter in this year.</p> <p>Q4 performance has been very good. New claims are now being processed within 18.4 days versus a target of 23 days. This is an improvement of 6.2 days on the same period last year.</p> <p>The average time taken to decide on a change event in Housing benefit is 4.9 days versus a target of 13 days. This is an improvement of 2.2 days on the same period last year and an improvement of 5.9 days on the previous quarter in this year. This reflects the inclusion of calculations relating to annual benefit uprating and rent changes but is still better than last year when similar changes occurred.</p>
