## **BACKGROUND**

1. The Council is required to establish standard documentation and authorisation requirements for all virements.
2. The Council's Financial Regulations determine the scheme of virement and its application. The Financial Regulations state that the scheme covers-

“all transfers of budget, of any value and for any reason including for reason of organisational restructure”.

This will remain in force until such time as the regulations are reviewed. The regulations make clear that no virement can be carried out without the approval of the Corporate Director of Finance & Operations (or his/her nominated delegate), who will also be the final arbiter in any dispute. Additionally, the Director may override any authorisation and determine that approval is required by a higher level of authority.
